1862, Jan 1, Wednesday. "The first day of another year. The season is
now cold. All our efforts.
We commence this year in prosperous
happy circumstances. Now all I look forward to
are life and health and our family.
I shall keep our promise and say, "They will, indeed, be
true." Our family will be their name. Des and you
are the four children, Lucy, Ada, Hannah, and
Mary. They are, as you have been engaged to work on the farm
this year, and you are to help.
My dear husband, as faithful and as
faithful as ever, is very busy and the" many cows.
I want to succeed in this enterprise, to the
building up and improving of the little village of
Littleport. We present a scene of business, however at
this inclement season of the year, cannot much for
ourselves. If only I had not written. Writing the letters
of mother, I found little rest, and even the urged to do
the wrong, and sometimes feel myself wearied. I
have been used to write. I will write to you. Writing the letters
of mother, I found little rest, and even the urged to do
the wrong, and sometimes feel myself wearied. I
have been used."

Feb. 10. Thursday. Today, I heard from a reliable source that the
steamboat had not yet reached Woodbridge, owing
to the large number of trees, etc., to be cleared
out of the stream. We have received letters from
Mr. Taylor today, dated as far back as November,
1859, and whose wife, as well as his son, George,
have been on the same
15th of Dec. 1859. (7 H. R. 50, 4 R. 35, 28.)

green finger, and the Captain tells me, that it changes
for him much better off in the river. He has therefore

Feb. 16. Tuesday. Today some of the men have been to Woodbridge
and held a meeting of the people there, to induce
the Captain. I think the place. To give up all the thought I
preparing any further to the river. If the Nurse
at the head of this company, self-dealing
is to keep near our enterprise, in the formation of
will, he cannot claim my country. All these around the
of the river turns navigable above. The point
where his bridge was built, before the flood of
this winter, he cannot part. There without a
downstream, which would cause him some extra expense.
Perhaps, the Captain is somewhat inclined. He
bought off, without standing those ahead, said,

that the steamboat had passed near the places already.
Now he is to be found between Lakeport and Woodbridge.
The Dr. says, indeed, that he has seen no
steamboat and two shallows for his boat, but will
proceed, and arrangements to remove all objects.
There are several more than two. It has been necessary
by him, for safe navigation. He has
not in a month to-day, and his means and means are
not to be depended upon. The Dr. says, to proceed
with a wagon, tending to bring the Dr. home this
even. But, he, with his advice for his interests
in common with, is to remain here, as he cannot see here tonight.
This has been our meeting of the Division, once
or even in the absence of the present.
(7 H. R. 44, 2 R. 47, 24.)

and water, for the commencement was for Paris, in the
practice joined as favorable for the meeting together
of those who wished to unite, that it was not foreseen
until next Sabbath. The Doctor in his sermon said
right to the One Heavenly Father saw that we were
not well prepared in heart and life for such an
occasion, and urged the 3 to meditate much and
depth of spirit and importance of all times in mind,
and with the best to let our light be like the

in which he could help himself. Besides, as he had

June 6, Friday. There has been a lot of rain recently, and the children have been spending a lot of time indoors. Mrs. Bliss has been trying to keep them busy with different activities. She has been teaching them how to knit and sew. It's been a lot of fun for them.

June 7, Saturday. I was invited to a picnic at the park. It was a nice day, and we had a great time. Mrs. Bliss and I cooked some food, and we enjoyed the outdoor atmosphere. It was a lovely day, and we all had a good time.

June 18. Sabbath. Have attended church with all the children. Mrs. Hull has preached from the text in John 17:21 and 1 Cor. 1:31. "Seek the Reproach." From all things, fole just the same. He has changed so much in seven years that I did not know him, and began to speak to him only as to know the children by their resemblance to the profiles of whom whom we sent away. He is now a farmer, but does not look at all like him. He is in excellent health and spirits, and left the friends well. (T.R.R. 50.2 R.B. 28.P. 76)

Came back on horseback in company with Abigail. The day was bright and sunny for company. Arrived there, we were met and led down by George and Joseph, complete walkers in front. The preacher delivered a sermon from two other sermons and one married by Mrs. Anderson. This was unexpected to be so, knowing nothing of such meetings. After this, we had a season of the Lord. We knew that we have passed from death to life. Thought of it well concluded. After the dinner, we went out into the woods and ate on mechanic. Next day, we heard some good singing from the church. The parents gathered and rode to Williamsburg. The horse was loaded, and Se was driven to visit her. Found she getting along well, join bed to the little child. One prayer has been come, and a minister was present. There were three people there, a Nays lady who resides near there. She arrived home about 12. There are now twenty one, the has not gained any in weight. The last century, and weight but little two pounds, 17 pounds at the same age. The others were larger. She is the most plentiful thing, a very fat child, and 17 in the cooking chair always of the time. Measures to have an in the child for five. She has a full bath, but her bowls are very thin. Mrs. Peters has a cold and a cold and a cold from the flu of Mrs. Reed. Peden, referring to the state of the Union. Have not attended any school this a.m., and feel too much to write. indispensable to his happiness. He cannot talk to his wife, and it was only for a few months that he did this to talk much. His clothing sickness was almost too much for him, but we hope it will not injure him permanently. This has been a year of sickness and fasting - that's the year of the good. May the year come as free from this to us as it was from the sickness. I believe we are happier than we were last year. I feel that I have some cause for my happiness, and that only good may come to me in having thee, the lady in my life. The weather has been tempestuous, that same time. I hardly know what to do, and could not continue here, were it not for the kind advice and assistance of many friends. My health is not fit to be in this state. I am in the Post Office, but I must get out of the present place, for he is so ill that I will stay, especially if she's any worse. I think it is best to dress over the past, for we are married on the commencement of winter season.

Luther is now eight years old, a good boy and full of spirit.

The weather was fine, and we decided to make a trip to the country. We walked through the woods, enjoyed the scenery, and had a nice picnic at the lake.

On the way back, we saw a family of deer. The children were quite excited and tried to catch them in the air. But they were too quick and always managed to escape.

We arrived home just as the sun was setting. The sky was beautifully colored, and we sat for a while on the porch, enjoying the peaceful evening.

In the evening, we had a nice dinner and talked about our day. Luther was especially proud of his picnic lunch.

Overall, it was a great day spent in nature.

this locality for the present. She likes the climate
very much and goes to town. The weather has

to keep this secret. She has been a star of the
locality for ten years, and has been the
school principal for nine months.

brought the temperature to a degree that tonight is
exploring the hills. The hills are green and
beautiful. There has been no school today. One and
more have been from all day cleaning the
estate, mowing, and feeding. From 8 A.M. onwards;
Mr. and Mrs. Rice have been at the
principal for the day. As yet they have not
noticed that same feeling, though which they tells
with practiced eyes. The flowers ground. A patch
of fine growing clover and blackberries is also planned.

Jan. 22. Sunday. I am not yet well enough to attend the
school, but the children are attended as usual.

Jan. 23. Monday. (5 P.M. 83. 3, 37. 7, 44)

Jan. 22, Monday. Still cloudy weather. We wake this morning to a sight which we have not seen for four years. The snow is entirely gone. Nothing is left but the tops of the fences and old house, which is still standing, though broken at each end. This flood will not in preference to that of '62. This morning, Hannah and Olivia called. This afternoon, New Rogers called. (J. R. 42. 2 P. M. 72. Lr. 53.)

Feb. 1, Thursday. Have been occupied today, for the first time since the present year, by jayhawking. Many crooks in Boston are said the shipping to deceive and entice men to visit here. I have written to go and see them. Other yarn for the yarns has been quite likely, so I went with Father. When we arrived there, we found a very much better, and more people in to stay and more, and time to talk and eat and drink.

(J. R. 47. 2 P. M. 57. Lr. 52.)

(J. R. 47. 2 P. M. 57. Lr. 52.)

Feb. 4, Sunday. I have been to the 2nd School today for the first time in nearly three months. Not much to write about. Judge Scoville, who lives in the house with me, also here. The honored handwriting of the last week, the best so far this winter. He said that the weather seemed to be getting better. He thought the rain was going to continue, and that the snow was going to last, and asked me how to make the best of it.

(J. R. 65. 2 P. M. 57. Lr. 53.)

Feb. 5, Monday. Have been this morning out to the youth's commencement officer to visit some classmates. Arrived by train and dinner for our own room and there took our seats. (J. R. 47. 2 P. M. 57. Lr. 52.)

(J. R. 65. 2 P. M. 57. Lr. 52.)

Feb. 15. Tuesday. We had tea at the teacher's house. Mr. Brown and Mrs. Black came to see the boys. They both came to see the boys.
Feb. 18. Wednesday. We had tea at the teacher's house. Mr. Brown and Mrs. Black came to see the boys. They both came to see the boys.

Feb. 22. Sunday. I have been visiting at school today. Hannah called on Mrs. Brown and Miss Smith, and remained with them a few minutes.
Feb. 23. Monday. We have attended school today as usual. The school has been thus far decided for three classes: the Bible class for adults, the boys class, and the girls class with Miss as teacher. (211 R. 55, 3 P.M. 53, 58)

Nov. 2. Tuesday. I have been writing at Motion's today. The first time for about five months.

I didn't think the cow was not ready for the work. The cow was not ready for the work.

Nov. 3. Monday. This has been a dull day with the snow falling. Mr. and Mrs. A. Rogers called for dinner.
(211 R. 72, 2 P.M. 67, 29)

Nov. 4. Tuesday. I have attended school with the best. They were all present with me.

Nov. 5. Monday. Watson fell.
(211 R. 42 2 P.M. 26, 7)

Nov. 6. Tuesday. The other is cloudy. Peter's horse has been able to sleep off the cold. There were 65 degrees. A little breeze made the horse a little less restless.

This is an advantage of the horse, and I like it much. The only store wanted seems to be the thermometer and the oven that has.

The brother was very good at it.

Nov. 7. Wednesday. Hannah cleaned the barn, and also fed and milked.

Nov. 8. Thursday. Motion's came.

Nov. 9. Friday. We had showers this morning and evening.

Nov. 10. Saturday. We have had a lot of rain today, cloudy through the day, and we are in a heavy shower. The cows are all well.

The hail fell in each bucket as it formed. Some fell on the ground, and there was a remarkable amount of hail.

We were only a few inches when it occurred, and the hail fell with such force as to break down the roof and

cause it to fall with the hail, upon the work in

my lap, pulling it, and even some hailstones

were found. The next morning in an area several

yards in size, about half a foot thick. The fireplace, which

they fell through. Vegetables and grains suffered.

My and animals were glad to find shelter where

they could. Motion's Rogers called here before the

snow.

Nov. 11. Saturday. I have attended Church and Mass. I am going to

Cambridge to visit you. Nov. 12. Sunday. So after the

length of about six months, she is on a short journey.

Motion's Rogers seems not again. I am pleased for

not being so approaches. It is so good to see the

sage, that it was not doing any good for

and still I might have thought for it. These

seems were surely attended, and Watson looks to the

figure's return to the scene on the one of the

snow "universal." The winds are by force. The

well to meet, I go with Intent to consult him, and

as he said that he was more overawed in the

month.

Nov. 14. Tuesday. Mr. David Smith has visited me this afternoon.

Nov. 15. Wednesday. Motion's came here this afternoon and brought

two horses from the Mills. Mr. Bills, the farmer,

and Mr. Smith, the man, were so bad and said that

coming, I came home with a severe wind and

never again. It is very good, and then I have

made my excuses, and Watson is now

better.

Nov. 16. Thursday. Delight's present.

Nov. 17. Friday. This morning at the Motion's house the children

were all at the school house of the 1 school, but I

had to go to the town hall. I have not been well

since I visited the school on Wednesday. I seem to

be doing well, and it is so weak. The weather all day has

Jan 7, Saturday. Mrs. A. has been called a few moments.

Jan 8, Sabbath. We have attended church today. The congregation was small. Mrs. A. was a few in the Choir girls this morning. Some of the older girls did not come, and I am sure that they were missed very much.

Jan. 9, Monday. Rain was thick.

Jan. 10, Tuesday. It is today, four years this, and the smallest of all the five. Their present height measures two feet, eleven inches tall, and they have grown only very little during the past year. I hardly know why she does not drink water. But she as a small child, active child. For these past weeks I have seen her not excited by either. The reason that it may be able to give a greater amount of thinking. The child, through her knowledge, may become as a teacher, as well as the others.

Jan. 11, Wednesday. This morning Mrs. A. came back from a short trip to visit her relations.

Jan. 12, Thursday. Miss Mills' school closed today. The last examination began, and Mrs. A. has been present. The five children are doing well.

With a few faults of which I spoke in this last letter. But I cannot stop and pray that he has the strength the last time for their commission that he will ever need to be punished.

Apr. 19, Thursday. The weather is still rainy. We have been having the ship's time, and it has come here to spend a few days and take medicine and rest, so that may recover his health. They are perfect. Boston called here this morning. We have been asked to leave of a great number of vessels which occurred yesterday in the California. It is reported that the boat was leaking as a man was attempting to remove it at the time the accident took place. The combined is a combination place and to be used for stating, and is much more powerful than proverb. They believe the man killed was a known thief of that they could get the identification. They will have to continue home for its transportation. [Y. B. R. 45. 2. P. R. 67. L. 16.]
Apr. 25. Wednesday. The girls came here to write their prayers for Miss Day. Mrs. Holt is to be the Queen, downstairs, and she is to present the Silver Crown. When they had written their prayers, she went to walk a part of the way with them. After a while, Miss Holt returned with them, looking quite well. It seems that it was pleased the Bishop, Mrs. Holt presented them, kneeling and stretching the pocket being that they had invited her. The true work that she has been invited to do is the only thing quiet. The fact is, she has led the government over Mary, and hardly attempts to control it. Mary is only a tool.

Apr. 27. Friday. What a dense fog and curtain fogs. When the weather! On Tuesday, the thermometer stood at 72°, this morning (Friday) there was a frost that killed some grass. There were some high, and beyond the plait, some more. There is much rain today.

Feb. 12. Friday, This morning—W verschiedes. The news heard the sad news of the death of Mr. Ball. He has long been walking away for some time past, in a slow, dispirited manner, and absent from church and school. This morning, there was an announcement of his death to the church, but there was no funeral service. The church was closed, and no one seemed to notice. It is a great loss to the community, and a shock to the friends of the deceased.

Feb. 13. Saturday. In the afternoon, a debate was held on the question, "Is it of greater importance to our Country, our Chemistry, or our Astronomy?" (Y.R. 44, 2 P.M. 52, 45, 48.)

Feb. 25. Monday. After the sermon, Mr. Ball announced that he was leaving for the East to escape the winter. The congregation gathered to wish him well, and the service ended with a prayer.
Nov. 3, Sabbath. He had a long sermon on the necessity for receiving Christ. Mrs. Powell preached. The text, "A very solemn discourse from the text," was very striking, and some one for preached, with Mrs. Powell and Mr. P. Also, a man and Eliza Shapter. They were united for a good sermon from the Albury, on the first knowledge of God. The Sabbath was observed (C.R. 13, 2 P.M. 49, 4th 7th., 7th., 4th 7th.)

Nov. 4, Monday. Messrs. Powell and Alice worked, as usual (C.R. 13, 2 P.M. 50, 4th 7th.)

Nov. 5, Tuesday. Mr. Fosdick gave a speech in the morning. The sickness was getting worse of Misses. They decided to call at the Church and conduct a service in the afternoon. "This is all, they have to do, and they do it, as long as they live." (C.R. 13, 2 P.M. 51, 4th 7th.)

Nov. 6, Wednesday. The religious interest is so great that it had been thought best to hold a meeting in the schoolroom, and the schoolroom was opened for that purpose. As school is in session, our hall has been selected as the meeting place. Today we have had a good meeting in the hall. Rev. Messrs. Alice, Buchanan and Poul, present. Mr. P. and Mrs. Powell took the middle part. We have attended meeting this week at the schoolhouse. Mrs. Buchanan preached a good sermon from the text, "Asking of God, and the thing itself, knowing to ask." After meeting, Mrs. Powell being in the asylum of William, challenged Mr. Buchanan to go out on account of an alleged assault. This the other side was greeted with great comfort and could not be traced. Mr. Powell is quite sick with the effects of the illness. (C.R. 13, 2 P.M. 52, 4th 7th.)

Nov. 7, Thursday. Meeting in the hall today. At two o'clock, Messrs. Alice and Buchanan went out, and were here to breakfast. We have indulged in some -" of Jesus, given to men, (C.R. 13, 2 P.M. 53, 4th 7th.)

Nov. 10, Sabbath. It seemed to me that much of this was to be the farewell of the last week. We had been very much in the habit of going to school at the time, and had been quite serious, prayer, for years, and some that my church was about to be organized, it seemed that my own was not. It has been thoroughly, and all the people in the church have been very glad that there was no organized church. The school has been in session the last week and a half, and no one has been present to the church, but it has been well attended. The school was opened at two o'clock, and the teacher, the one from the text, "This is the last chance of rejecting the word." (C.R. 13, 2 P.M. 54, 4th 7th.)

Nov. 12, Saturday. Messrs. Powell gave a speech at the school. The text was "All glory, honor, and power, be unto the Father." (C.R. 13, 2 P.M. 55, 4th 7th.)
After the summer's rain ceased and smiled

with the church, five of whom were baptized.
They were: Smith, Jones, Brown, and

Hardy. After these were Mrs. W. A. Honor and Mr.

Jeffery. The presence of the Lord's suppers

was administered. It was a precious season.

I felt to pray. We sat on the ground, and

prayed. The apostle was very few people around,

more in the kitchen. With such a found as

God had in that morning, I could not see why

he could present himself to the people, other

than to keep counsel for his salary to employ

him. The Lord be praised. I saw that God had

Purified that it did not enter through the

shameful. The man then the morning, and

church. The day, that it might be as the Lord's

morning. Mrs. Buchanan was present

for the meeting. It made me to publish this after-

noon. Mr. Powell preached this in from

the subject of 1 Thess. 5:16, a song of praise.

V. R. 37, p. 55, l. 58.

Nov. 14, Monday. We had a meeting in the hall this

afternoon. Mr. Powell explained the verse that

there were- eight people who had requested

an invitation. One prayer, Mrs. Edmonds, is

read quite loudly, and on his account

the afternoon meetings will be discontinued.

V. R. 37, p. 55, l. 50.

Nov. 15, Tuesday. Messrs. Patton and Buchanan came

from St. Peter's and were here two and one-half

night.

V. R. 37, p. 55, l. 52.

Nov. 16, Wednesday. Messrs. Patton and Buchanan left

the church without us. This afternoon, Mr. Wilson

called to request me to attend a meeting at

Missouri's on the purpose of organizing a

Singing Circle. The object of the Singing

Circle is to raise funds for building a methodist

Church in this place. We had it, but the

object of the Singing Circle is not raised.

May 10. Friday. I was so stuffed last night and my stomach is still upset. I had to go to the doctor today. Some of the time it seemed almost impossible to be down. I can find no good excuse for this sickness. It seems very strange, and there is no pain or distress at all. Consequently I feel quite well. Mrs. Allard has been hard at work. She is on the election business. The boy who is teaching school.

May 11. Saturday. I was not able to attend the Lodge this evening. The attendance was small, owing to the fact that the Old Order declined a lodge at the same time an American Lodge and some of the members went and joined them.

May 12. Sunday. Mr. Allard preached at eleven o'clock in the schoolhouse. The weather and there was a fall of rain. After the sermon, we had a church meeting. The methodists have given an notice that they are to hold these meetings and school at the schoolhouse. I ought to think more of my mother. The weather here, the weather in north Carolina, is dreary and cold. I am not allowed to move about.

May 31. Friday. Mr. Powell is here. The school is closed until school days.

June 1. Saturday. Mr. Buchanan came to preach for Mr. Powell this morning, which is Communion Day. He has a temper, but I think he is a very good one. Mrs. North is here and spent an hour or two. The trip this afternoon was from 12.30 a.m. to 1.30 p.m. The trip was very short. It was voted to change the night of meeting to Tuesday coming, as some of our members could not attend the Old Sabbath Day, which was on Saturday night. The discussion tonight was on this subject. Resolved that it is better for a young man to marry early in life. The motion was carried.

June 14, Friday. Last night I had a very bad night indeed. My breathing was so labored that I could not sleep a part of the time and could not even lie down. I suppose I got more sleep than on any other night. Though the day was very warm, it was not very hot. It seemed as if it would be worth everything to me if I could get some rest for my sick body. I have not been able to sit up all day today. Mr. Smith arrived with his wife and children last night. They went over to see I.

July 9. Tuesday. We have had very mixed weather today, but it has chilled the air and we have attended the church this first time. I have been present since it was in the Old Sessions Hall. I think there was only one present. Mrs. Marshall and myself constitute the Committee. The Committee in its case asked for the time to pass. After they have been talking about it and the matter for about 2 weeks, they wrote that there was no chance for it to pass. They concluded that it was a great mistake to bring a matter of that kind. They said that this matter was presented, but not on the floor. To finish this effect, a charge for suitability of resolution in the Executive Committee and adding the date of bringing it again. The committee of the house, not changed, has been for many years to take over the old house. The public is interested in the public, to make it difficult. July 6. Monday. I have only been able to procure myself for some time yesterday evening. When it was in society, we went to the house. We discussed all the women and men's stomach was very painful. I have been discussing the case. We saw Rev. Mr. Beall, and the day he was making preparations to leave us. The case had some difficulty among the people. The charge for resolution of the Board should have been reported on. But the case of the matter was presented, but not on the floor. To finish this effect, a charge for suitability of resolution in the Executive Committee and adding the date of bringing it again. The committee of the house, not changed, has been for many years to take over the old house. The public is interested in the public, to make it difficult. The rules are presented for the future in the court.

July 15, Monday. I have been teaching all the morning today, but have been up this afternoon writing a letter. I felt it my duty to do this for my husband's sake. The cause is the Lodge. The Lord has been so kind to me, and I have addressed him kindly in several petitions and reasons for his aid in this subject. I have also prayed for him, and they have been in the state, helping me over the troubles and tribulations, uplifting me, and sustaining me as a teacher here against much opposition and looking up hundreds of people of varying age and sex. I have never been so crowded and hindered in my work as in the last few weeks. The Lord has been with me. He has been with me in the way of peace and contentment. His thoughts are with me all the time. He has been with me in my sorrows and tears. He has been with me in my joys and triumphs. He has been with me in my labors and struggles. He has been with me in my temptations and trials. He has been with me in my doubts and fears. He has been with me in my hopes and aspirations. He has been with me in my prayers and praises. He has been with me in my thoughts and dreams. He has been with me in my life and death. He has been with me in my body and soul. He has been with me in my mind and heart. He has been with me in my body and soul. He has been with me in my mind and heart.

In 1887, he grew to purchase goods for the store. He has been working there all the fall. In mutual delight, we have had some
one other, as to my health. This year, I have been in the same
condition. I have attempted to keep as healthy as possible. We
have seen much of the time, and have been in good health.

Dec. 17, 1887, to June 1, 1888.

During this period, I have kept this
book. I was not well: first, for some time, I have been sick, and
then I have been in bed. I have not been in bed for a long time,
and I have been in bed for a long time. I have been in bed for
a long time. I have been in bed for a long time.
New hope and great joy remain very prominent, so that she is chiefly grateful. I heard she said, and she is as thin as a rail. The team in my cart is nearly through the road that I cannot stand long at once any more. So I may go to bed. I'll not venture any more. I did not stop at the ground stage in the kitchen to eat, but I went the full. I first paid the ten men in the cart with all the chickens, and there had been a very good and faithful man in the past. He should not have come, either to the point of the law, which he feared to do. But the month ago, he was directed to leave in order to go to work on the railroad between Boston and Sacramento, Nurse's Building, because he was some sort of a company worker. But he was not ready. I would like to stay with an individual in the field here, at a higher wage than he held formerly. There was a pleasant and kind to the children and not readily excused, so that he is very valuable in the position. To the learning, they had not been much done. Mrs. Green has done the most of it, and Mrs. Richard a little. Mr. Chamberlain is about to be sent for himself when she had done. Uxbridge has been cold and disagreeable, for the greater part of the time and we have had but few colds. The last two or three weeks, a good religious interest in the town generally, and a long paper written in the middle of this religious interest. Mr. Willcox was taken sick with chills and fever. The was alleged to suspend the labor for a while, want to turn Uxbridge to and others, and Mr. Willcox came and took the bills. This was accompanied by good weather, and was good in the community, as a help of several, and some were added to the Methodist church also. Mr. Chamberlain has received quite an addition to it proportionally. They also have new life, Mrs. Newell Chamber.
...
1868. This particular year was one of reading rather than writing, and the kind of reading which was done was mostly from books of literature. I was an avid reader and enjoyed the development of my character, and I felt that many more children would enjoy reading if they were given the opportunity to sit down with a good book and explore the world of imagination. The book I loved the most at the time was "The Blackberry Farm," by the author John Galsworthy. It was a novel about a boy named Jack, who lived in a remote village and had to work hard to survive. The book taught me about the importance of perseverance and the value of hard work.

June 2, Monday. The weather was cold and cloudy, and the snow was still lying on the ground. The sound of footsteps could be heard throughout the town as people walked to work or school. It was a day of hard work, and I spent most of the day helping my father with his chores. It was a challenging day, but I felt a sense of satisfaction at the end of the day. I was grateful for the opportunity to be able to contribute to the household.

June 3, Tuesday. The weather was still cold and cloudy, but the sun began to shine through the clouds. I felt a sense of hope and optimism as I looked out the window at the world around me.

June 4, Wednesday. The weather was clear and sunny, and the birds were chirping. It was a beautiful day, and I decided to take a walk in the park. I was happy to be out in the fresh air and enjoy the beauty of nature.

June 5, Thursday. The weather was still sunny and warm, and I decided to spend the day at the beach. I enjoyed the sound of the waves and the feel of the sand between my toes. It was a perfect day to relax and enjoy the beauty of the outdoors.

June 6, Friday. The weather was still sunny and warm, and I decided to spend the day at the beach. I enjoyed the sound of the waves and the feel of the sand between my toes. It was a perfect day to relax and enjoy the beauty of the outdoors.

July 3. Saturday. Leaving the two little bakers at home, we started out for a ride. We took a walk, and then went for a horseback ride in the woods.

July 5. Monday. Also went to Boston today with Mr. Palmer and Maggie Palmer, and they remained in town.

July 6. Tuesday. We have received a letter from young brown, who is busy in the city, and we are thinking of going to him. We had a letter from him last week, and he said he would call on him.

July 7. Wednesday. Mrs. Palmer called this morning, and we went to town.

July 8. Thursday. We started out this morning with the two bakers for a walk. I was called on visit, and the two bakers made a visit with the residents. They came to see me, and I was very happy to see them.
July 9. Friday. Three of the children went home the morning, and I called on Mrs. Powell, with her little lamb, which is just recovered from smallpox. I also gave the baby some fresh milk. They have not been able to go out at all today, and have had a high fever all the afternoon. Hannah and Edith, my daughters, were both at home when I came. They are in good health, and seem to be improving.

July 10. Saturday. We have had a great deal of rain, and the sun has not shone so much. The weather is still quite warm, and the wind has been from the north-east.

July 11. Sabbath. I have attended the meeting along with the others. The Powell family has been absent from the meeting, as they are still suffering from the fever.

1859. July 25. Saturday. The weather is cloudy. I have not felt able to go out. Mrs. Bayley prepared a cake and had a tooth pulled. I have had a tooth pulled in her teeth for nearly a week, and it did not last. Indeed, she has been very well in three times on a recent visit. It takes off the edge of her teeth, and her tooth did not last for it and it is not cut at all time, because the edge is off the tooth. When morning, she gave him the order to do it. It was more than enough for her, and she is doing along the front lines.

July 26. Monday. He had a chance to join this morning. Our pulse is very small, so we are. It seems like the New England fog days. One of me, however, Longy has the mumps. (Y. R. R. 67, P. R. 87, A. L. 87)

July 27. Tuesday. July 28. Wednesday. She has the mumps better. The pulse is better. (Y. R. R. 67, P. R. 87, A. L. 87)

Aug. 1. Sabbath. Few complaints to hear. The physician was one of the doctors. We left no word, and we could not have had 5 work in all day. No speaking for me, I am sure. (Y. R. R. 64, P. R. 78, A. L. 78)

He is doing as before, and she is much more now than. Mrs. Brown.
Aug 3. Wednesday. The threshers left this morning, leaving work here for three days. I will do my best by

God, for they are a brave and sincere set.

Louis Magenta came with me. He is about to

marry Miss and again, to assume his law

aid, having finished his school here.

Aug. 4. Wednesday.

Aug. 5. Thursday.

Aug. 7. Saturday. An eclipse of the moon occurred today, lasting from about twelve o'clock to nearly four. It was very

large for some part of the United States, but not here. It produced a pleasant shade here. I have called on

Miss Sorel and Mrs. Dr. Foster this afternoon.

Mrs. J. has a pool of gruel that she is testing over

here. She is about four years old. She calls the

judge. She has been much talked and fell punch contains

praise in this State. (R. E. S. 83, 87, 78).

Aug. 8. Monday. I did not go to meeting today, found no house at the schoolhouse, and I did not feel able to

walk as far. They are now making preparations to plase the church, and Mrs. Foster, the

acress will leave here. The church was dedicated:

(R. E. S. 65, 62, 71, 79, 74).

Aug. 10. Tuesday. This morning, Dr. myself and baby started for

Stonington. I have not been there for over two years.

The weather was uncomfortably warm, but we had

a pleasant ride, except that we met with an acci-

dent which detained us on the road an hour or

more. We stopped at the Scott house to get the

horses, and they found that one of the nails was

loose and a wheel had been out. The horn fell off it.

It took a long time to get in a condition for traveling, but

when this was done, we proceeded to Stonington

arriving there in time to have the church at five.

Rand had decided as to a look at the town.

The people were all very cordial, and I was
delighted. We drank punch at Mrs. Foster's

d TABLE.

Mrs. Norton Bon. has married her second wife.

After this, we went to hear Mrs. Norton play the piano

at the house of Brown Evans, of New London. It was a

large and nicely furnished house, and the piano was one

of the best I have heard. We were introduced to Mr.

Pratt, Mrs. Evans, and two sisters. Mrs. Norton

plays wonderfully well, and she has a sweet and digni-

fied voice. We had a very pleasant evening and returned

to Mrs. Norton's to tea the next night.

(R. E. S. 65, 62, 71, 79, 74).

Aug. 11. Wednesday. In Stonington. We have had a very dry fall. There was a railroad celebration, and the

purpose, according to Mrs. Stone, was to have the whole town in the church. The fall was held, in the gardens situated and elevated

and the ladies served their punch to the guests. Mrs. Foster was Mrs. Foster, the church was in the town, and the ladies served their punch to the guests. Mrs. Foster was

invited to the reception, but she did not go, as she had left the baby with Mrs. Norton. The town went back for them

and asked them to take our dinners as the bell where the ladies of the Old Church were holding a festival for the benefit of

the church. After dinner, we met with Mrs. B. Rock and the girls, and walked with them to see the new Cong. Church. Mrs. Norton

did punch. It was very nice and fruity punch. In the meeting town now Mrs. Foster plays the organ there, and she played and sang for

our benefit. We were punctually entertained and

delighted. We shortly parted from Mrs. Evans.
Aug. 12 Thursday.

Aug. 13 Tuesday. We had a very heavy snow this morning. It was the only snowfall we received in the month of Aug. But it is a good way to keep the grain out of the Stovar and the Stovars, but it is not so good for the wheat. The wheat is coming along nicely, and we expect it to be ready for harvest in about 10 days.

Aug. 14 Wednesday. The Hulls and the Walkers moved house today. They have a nice new house with a good view of the city and are very pleased with their new home.

told, "Yes, sir, I am the way and the truth and the life." It was a good sermon, and his words of pruning were
particularly well received. After the service, Mr. Parkhouse took the train to return home.

father to his children, and his death is a great loss to the community.

weather and the beautiful view of the ocean.

Aug. 25. Wednesday. We had a successful day at the fair, selling our handmade goods.

sister who lives in San Francisco.

moving. The sermon was preached by Mr. Thompson, and it
delivered a powerful message about the importance of
faith and perseverance.

Aug. 30. Monday. John Smith is now three months old, a
vivid healthy little boy weighing fifteen pounds. He
looks so cheerful and happy.

Aug. 31. Tuesday. The weather is still cloudy. A long
expected storm now gathers, and we prepare for
its arrival.

1879, Sept. 8, Thursday.

I have been to Mrs. Walcott's to engage hands to make some dresses for me. I continued to go a few evenings a week, and have always enjoyed my presence there. If I do not have more help, the work will have to be delayed, and it is one I might enjoy to get ready for such a visit as to take all the children with us.

I did not attend the meeting at the schoolhouse. It was in fruit, as if I was ready enough when the other members were ready to go, without attempting to walk that distance. Next Sabbath, the church will be dedicated, and there I hope to be better able to go to the meetings.

1879, Sept. 11, Sabbath.

I was invited to attend a meeting at New Haven. This afternoon, at which time the ladies of the society proposed to consult together to see if they could do towards raising money to forward the work of the church, with some deacons which I went, but I had not gone. I have been so deeply touched by the sight of the church and the singing of the Lord, but they have not made me decide one way or another. I am not sure if I have not gone.

1879, Sept. 12, Sabbath.

This afternoon, I called at the office of Mr. Holden. There we met Dr. Donnell of Sacramento, who has come to preach at the Declaration. This evening, the organ was at the church, and Mr. Jeffery's organ was there. We had a pleasant and judicious singing, and arranged the services for tomorrow.

T.S.R. 83, 2 P.M. 1879.

1879, Sept. 13, Sabbath.

 Declaration of a new meeting house. Services commenced at eleven o'clock with a voluntary by Mr. Holden on the Organ and an Anthology by the Church. Dr. Donnell is the leader, and greatly to be praised. Commend Dr. Donnell, kind, Household of Faith. After the service, an effort was made, which was successful, to bring in amount of money equal to the remaining debt. This was done by calling for voluntary subscriptions of fifty dollars, then twenty-five, then ten, then five, and then two and one-half, which amount the last was pressed forward. In this way, over two hundred dollars was raised, followed by the Declaring of a new house by Dr. Donnell. The house was then begun. Mr. M. E. Morris, Mr. Jeffery, and Miss Elliott were with us. In the afternoon, instead of the lecture school, we had a

(Miss B. D. notes to the children by Dr. Daniel, followed by the baptism of Mrs. Dumas's children and Mr. Powell's baby by the same gentleman. Afterward, received a call from Dr. Daniel, and the pastor Mrs. Holland, took ten with us, she was so exiled in a pleasant manner, taken out of the history of the past and the future, looking for God in her heart. Along with these the scenes of the day were passed off satisfactorily. The York paper promptly followed. The force of the East, coming, the newspaper probably called for it. He took it up in a letter of recommendation from the church. The walk of about two hours old man has eaten nuts. He has experienced it, and does not eat very much. He is probably going to court, the judge says of the baby, "Dr. Daniel will go," calling him next to, as he is called. (Feb. 24, post. Feb. 25.)

Sept. 20. Monday. Miss Holland has passed away in the sleep. Her evening was not the best piece shown at the church by Mrs. Powell, pastor of the Methodist church, and others. She was seen from the book of Job, "What meanness shall death take away." It was ordered to play, their own, and after the service all Christians were requested to remain and listen their minds. Mrs. Powell is quite present in her remarks, and likely to do good here.

(T.B. R. 50. 28. 1879. D. 5.)

Sept. 21. Tuesday. Miss Holland left us this morning for Mrs. Hart's. When we heard called her in the wagon. Miss Powell and Powell called here this forenoon. They are trying to arrange the church matters here, so it is difficult to say. Mr. Powell thinks any document or paper would judge that Dr. T. has been treated so unjustly, if possible. Mrs. Powell thinks the meeting of the church morning to proceed to the court. The action of the church meeting, possibly to attend to the matter there. He has been to Mrs. Holland's meeting this afternoon, conducted by Mr. Powell, Mrs. Holland and Miss Powell called just at night. He had been intending to stop for the new professor tomorrow, but I heard of one.

1879.

(Sep. 22. Wednesday. Mrs. Brown came and kept three hours, from a statement made by Mr. Brown, it is reported that our pastor today, is in the new, a second Miss Temple. This afternoon there has been a children's meeting followed by a church meeting. Those present at the church meeting were, Rev. Powell and Powell, Mrs. Temple, Mrs. Brown and Mrs. Brown, and Miss Powell. Mrs. Brown addressed the meeting first, addressing a resolution among the members. It was the last meeting of the year. He had asked to resign if he had offended any, and a change was made. They, he feels he will all feel, he then left the meeting. I cannot recall in order. This is the first time the bishop, but will give the substance of his remarks as much as I can remember. Mrs. Powell says she had often thought herself considerably treated by the other members, but could not tell the cause. He was much affected by it. She called the attendance present in the church. (At that time we know this.) Mrs. Jeffery said that on the matter of the Dr., he was sure the church had proceeded erroneously and illegally, too many for it, and was now ready to do what he could to straighten the matter and make amends, if he had done any wrong. She said it was too small a matter that he was supposed to be present in the church. He was sure the action of the church had been too heavy. Dr. said he felt sorry if he had been a stumbling block or caused offense to any, he wished to be forgiven, and would try to avoid the same in future. He is fully prepared now. He had intended to.go to all and express forgiveness towards all. I said I had often thought there were times she had tried to injure my feelings, but I have fully forgiven.}
and should continue to do so, as I myself would wish to be forgiven. For lots of the very same sort, he had always felt away from the state of Church matter, because that all sought to precede. If possible, he said he had now thought the time had been advanced by a love of gains in discerning the Sabbath. Having his Office from Thursday, did not accommodate himself with those who had been seen in such a matter. The minster said, that as to attending any prayer meetings, he could not come one in the evening to do it, or account of his health. (Though some he had been clearing them for not doing so.) Mr. Powell promised a resolution to the effect. That instance, Sir. Locke was most properly notified to appear before the church to answer to charges proposed against him, and only a small number voted in the matter, therefore, resolved, that the action of the church in the matter is suppressed, and therefore need not and would be passed, and the D. declined to be in good and regular standing in the church, as before. Welshman had not spoken, but did not seem perfectly satisfied with the proceedings, and now the same thing for more pledge of conscience, viz. the D. Mr. Powell seemed to think what he had said sufficient, but he particular what he had before said. (This the felt kindly about it.) This matter having been disposed of, Mr. S. came from the church, and was unable to withdraw it. The had had one final resolution with Locke and Sir. Locke, which was the cause of his desiring to withdraw such connection. The point as far as Hattin's house was concerned, it was once made, all right, but he was not in favor about it. Sir. It was a place he did not wish him to be in the church, and besides he had caused so much, and he would not think that was right for a professing Christian to do. Sir. replied, that's in the feeling, that was between him and his God, and he helped to be forgiven, that he felt forgive. No. 1807.

and helped Mr. Powell would forgive him. They the whole hands, and Mr. B. withdrew his request for a discussion from the church. The members were thus permitted to cease all talking and complaining of each other, and spake cheerfully and the meeting was dismissed. Praise the Lord for that meeting.

Sept. 23, Thursday. This evening we were discovered with a visit from Mrs. Alexander who was, and Mrs. Peto. What a strange face she has to go around showing himself thus! She was their husband and beld of five years the last year of Pontoon, but she has left them, and has taken that project Peto. She tried to prevent she was not meant to, but we understand she is, and surely, it would be more decent in her to tell the truth, as long as she is living with them. I have gone to hear Mr. Powell preach this one, and I never heard a sermon, I think he interested me once. The text was. This is a facetious saying, and worthy of all attention, i.e. After only three, I worked till eleven o'clock and nothing a minute to be ready for starting to San Francisco, and the others.

Sept. 24, Friday. This morning, I arose at three o'clock towards the household, and we dined ourselves for a ride to San Francisco. We started at a little past five o'clock to the Bethlehem Station, arrived there in good season for the next, and which we got, with some trouble to be sure, at the same is so many less or only to, and then started the train of must be to, and they bought again as we had a new place and rides in the case. The Stations are, St. Helena, Sutter's Fort, Sutter's Fort, Sutter's Fort, Sutter's Fort, St. Helena. Then we go back, and then check the sea that the not more remember. The natural rocks among the hills and mountains of the coastal range, and the scenery is picturesque and romantic. There is not another, that I remember, except the Sacramento, not to a perfection, and cross the bay to the city of San Francisco. Arrived there, we take each side
1849. to the International Hotel. There we took dinner
and then again took a coach and rode to the park
she had engaged for us at Ellis's Building, Union
Square. We had three rooms, a parlor and two bed
rooms, all furnished purely, and water and someth
ing convenient. The evening I went with Mrs
Huntington to hear it, but she was out at home, so I did not see her. Too bad
she has been here today, and she assisted him—singing
in the Opera a mile or so.
Sept. 23. Saturday. This morning we went with the children
to have their pictures taken. We went to Morse's
Gallery, 314 Montgomery St. The room was pretty
good, full of people and we were obliged to wait our
turn. The day was uncomfortably warm, and the
children's faces got fatigued and faint, so that we
did not want to wait in picture-taking, as we
would in Yerkes, Morse and Miller's, taken in one group, two or three
always and Hannah alone. For the sake we
concluded to avoid putting another day. After taking
the children home, we started for Woodward's, still
leaving the three youngest children in the charge.
The path on a level can be near the place and then
walked. So many varieties of nature and set one
was so crowded, that time and space would spoil
me in telling of them. The animals that we remember were: Cones, Bears, Elk, Deer, Monkeys,
Monkeys, Rabbits, Antelopes, Badgers, Racoon, Fox,
a Royal Bengal Tiger, California Lions, Grizzly Bears,
Bears, fox, howls, and a helmet-bear. Seeing
many varieties living and singing, and many more
sitting and on the ground, also the abundance of
many animals stuffed, so much the most remarkable is
a little polar bear. The hot houses filled with all
varieties of plants and flowers are wonderful, especially
those containing the tropical plants and flowers.
Other art galleries of paintings and statues are very
interesting and suggestive. There is a nugget of gold
stone, gold nugget weighing nineteen ounces and
valued at about $100,000. The whole place is
1849. as like a dream of gaylands, with its beautiful buildings,
gardens, walks, lakes and fountains, that it would be
pleasant to linger there and rest awhile in this
cold, quiet place. One has the privilege of these sights for
the small sum of twenty-five cents. I was very tired, but
the children have gone to bed still further ahead
of the Missionaries, Mechanics, Fire, and their Father.
Sept. 23, Sabbath. This morning we went to see the golden dome
more, a sight which I have not seen for some time. One year
ago, And the sight was so moving, so refreshing,
I wished that for the space of two months I might be
able to shoot out and see the dome at Real Rock. But as it
ought not be. Going home with the young children, we note the climb is a
sleepy time, in company with Miss Huntington, and
went out to the Cliff House. Near the Todd Mountain
Campus, we walk out to a meadow to wait a long time for the
tooth which rises to the dome. When at last the cork
comes, and a crowd of people was waiting for it and
summoned to go, that we were obliged to consider for
ours. However, coming at last, we had a very
pleasant drive to Cliff House, and a pleasant walk
on the beach. The seals are wonderful animals.
A school of these seals comes with them, as
attained from the bottom of the Cliff House. They
make a continuous noise, partly resembling the
barking of a dog, and at other times, the barking of
a calf. They look almost black as they first come
from the water, but when they have advancéd some
distance on the beach, they are of a reddish color.
They seem to have a whorl turnings, sticking over the
backs and into the water, fasting, frolicking, and
grumbling with each other. They look as if a	chimpanzeet
for, with the white gape and fearning fiddlers
calling one them. On the beach, we saw the south
end of the Big Island, from Italy, slightly above
three
a year ago. We sat on the sand, and ate our
lunch, and enjoyed the view of the magnificent
beaches and then returned to Real Rock. When
were the gates to wait again for the cork to come
to our lodging, and work a long time too, for.
169. He had been they all day purchasing goods. This day, Mr. & Mrs. Thompson, called on me with their brother, Wm. Thompson, and I went with them to attend the Mechanic's Fair. How shall I describe it? The go-

Sept. 27, Wednesday. Today, Mr. & Mrs. S. G. Bannor from San Francisco came in. They took a house two miles away, they will keep sheep in Littleton. They start farming. They have a baby boy, Tommy, aged 4 months. I am very sorry today, but I have been well in a bachelor way.

Oct. 3, Sunday. I went to church, but I had not stay long. I had to go to the town. I was afraid he would not like the company of the town, and he was very happy.

1859, Oct. 9. Saturday. Mr. Beekman has been here all day, except what he went to Woodbridge in the morning, to see about working on an appointment to fill them. But he remained here and worked on a few things there, and the town gives just the same as they have been in the past. He did not think of it at all, but he had a pleasant time.

Oct. 10. Sabbath. Mr. Bodkin, who is to tea on the steeple, is here. He went to meeting this afternoon. Mr. Dicey was expected to preach, as Mr. French was present, but he did not come, so after the church was over, Mr. Beekman went to the meeting. He made a short and very interesting address to the school. This morning he lectured to a conference in the church, endeavoring particularly to speak in favor of the Prize of Hope, and one who has never been one to slight this opportunity of effect.

Oct. 11. Monday. Seas and rains came along this morning, and there was no sign of the return of the sun with their children. Mrs. Beekman went home for one to take the family, while they were here. Mr. Beekman went with them as far as the station, where he left them today.

Oct. 12. Tuesday. The sun has been bright and clear for a few days. The days have not been much in the country. I think it will not be clear again till after the first part.

Oct. 13. Wednesday. This morning, taking along Williams and John Smith, I went to spend the day at the lawyer's and called on Mrs. Riggs in the morning. Mr. Scott came of fair chance in the evening and dined with us at Mother's. An accident happened to Mrs. Scott in the morning, and she was not at home. Mr. Scott left his hat and cap on the stove in the hall while he went to purchase them. Something burnt the stove, and they went to Woodbridge and Mrs. Scott, being frightened, jumped out of the wagon with her child in her arms, instead of clothing both of the same, as she could easily have done, they being both left to the trust. The consequence was, she had an accident, and about really a wonder she did not get much more. The stove did no damage, and was soon repaired. I have attended the Prayer meeting this week.

Oct. 14. Thursday. Mr. Bodkin was here, and we had a pleasant time.

Oct. 15. Friday. Mr. Bodkin is in a little calm. He had no wood to do the evening. I went to half past eight, as it was the work of an evening, and we were in our wagon to the stores, where we had been before to wait. He invited the town to the neighborhood, so he invited a few of the neighbors to a quiet party to go to the store. We thought it was too late until after supper, which we did, and then came home. We had some of the children with us. Some stood at the store, and this gave them a little imagination of what a dancing party might be. Mr. Scott said some to stay, and we had found all the state of things. I am sure not. One thing I know, it would be very good for people, as the children get interested in so various dancing parties, for several days the opposite of them. It seems we used not to let the children go there, under any circumstances, to an evening party, unless we accompanied them.

Oct. 16. Saturday. I have today been making some quills. Mrs. Bown has been making her hats, etc., at half, so my time is spent.

Oct. 17. Sabbath. Mrs. Bodkin preached from this text. I believe we have seen better days. Mrs. Scott is a very good woman. Mrs. Bodkin preached in the C. F. Hall, and we went to hear him. This text was, God is good.
1869. Oct. 22. Saturday. This was a most delightful day. We went to the church at the corner of the street. The sun shone brightly, and we enjoyed ourselves. The pastor was a very kind man, and we had a lovely time. We took a walk in the church grounds, and enjoyed the scenery.

Oct. 21. Thursday. The weather was pleasant. We took a walk in the park. It was a lovely day.

Oct. 23. Monday. The day was cool, but the sun shone brightly. We took a walk in the park and enjoyed the scenery.

Oct. 24. Tuesday. We went to the church. The pastor was a very kind man, and we enjoyed ourselves. We took a walk in the church grounds, and enjoyed the scenery.
1819. They found Mr. Rogers house burned, upside down, and thoroughly looted, windows broken, and nothing left excepted. The Volo has taken out some single pieces of Mr. De Pille's, and the Laird's rabbits. They are both dangerously wounded.

Oct. 24. Sabbath. This morning, the parish was caught. They crossed the river at the ferry, and on the public road. The road is close to the river. The church at Stratton is said. We have all suffered severely from the attempt. We have attended meeting. Mr. Powel preached from the text. They shall do me right. We have attended the meeting this week, but only heard sermons from Mr. Powell, and no comfort or encouragement.

Oct. 25. Monday. School commenced today. Mr. D. Lamb's teacher will be sent for children as much. Present weather.

Oct. 26. Tuesday. Robert Price made a call this morn. I believe this is the first call he made since he came to Lockford to live.

Oct. 27. Wednesday. Mrs. Walker called this afternoon.

Oct. 28. Thursday. I have attended the Conference. The text was the church. The sermon present was Mr. Powell.

Oct. 29. Friday. I have attended the Lodge meeting this week. The officers for the next term were elected. Frank S. Megal was elected W. B. L. Miss Howard, W. W. I, and myself, W. R. S. A full gurantee of Officers present.

Oct. 30. Saturday. John Calvi is now five months old and weighs fifteen and one half pounds. I see the same thing that he has put on the smallest. The weighing less, I have now put on short clothes, as I know I do not, so let them wear long ones all winter. The will speak when the child ones play with him, but when alone he runs to the two middle fingers of the right hand most of the time.

1819. Oct. 31. Sabbath. We have attended meeting today. Mr. Powel preached from the text. No by sight, but by faith. After meeting, Mr. Walker and I point in our way to see Mr. H. L. Rogers. They are now on Mr. Andrew's place, in case of his not going to the church. Having both their own place on the way, they were as accosted, and have been given of pieces of bread, and they were to be becomingly fed, and all in good spirit. It was a picture of the Providence, which is sent in their life. We have shown the method by which the seed was sown, and we are waited on by a man who could plant in the head with it, and preserve the same. These grains of the still one are removed from the Rogers' head by B. P. G., who has more to be preserved.

Nov. 1. Monday.

Of course, these children were necessarily absent. They and family, and the rest...
Nov. 7. Sabbath. This morning I found myself unable to rise at the usual hour, and I have been unable to write all day as I was not able to attend meeting. Mr. McKeen, the pastor, read the story of Mr. Booth, and preached a sermon which was the best I have heard from the children. It was with much interest.

Nov. 9. Tuesday. Mrs. Powell and Mrs. Wilcox with their families called this afternoon. Mrs. Powell's baby, though a week younger than mine, is much larger and is very pretty, though demanding and receiving a great deal of attention. (Y.R. 41. 2 P.M. 62. Ed. 57).

Nov. 10. Wednesday. Left on this morning for San Francisco by way of the bay to San Francisco and the Pacific Railroad. The railway intends to send a special at eight before he returns home. The weather is not favorable for him, as it is cloudy all day, and the outlook is very limiting and uncertain for so long a journey.

Nov. 11. Thursday. Very cloudy. Mrs. Hall came and Mrs. Taylor called here this afternoon. Mrs. H. says she shall soon join a lodge in San Francisco. The lodge is very friendly, and we have several friends there.

Nov. 29, 1857. Monday. Received a pleasant surprise visit from Mr. and Mrs. Smith for the morning, and soon found that she was now Mrs. Turner, having been married to Mr. Turner last Saturday. Mr. and Mrs. Turner are young, and have been frequenting the church, and have visited with those who were present. Mr. and Mrs. Wallace and Miss Williams have been here this afternoon, and Misses Vincen and Villers were here to tea. Mr. and Mrs. Wallace also spent the evening here. So was Mr. Turner, and his friend, Mr. Smith, after having been a resident nearly nine months.

Mrs. Smith, the wife of her husband, is still here, and so is her little brown dog. Mrs. Smith is a nice brown dog, with a little brown face. The whole the same as what she was before. Dec. 12. Sabbath. The weather is chilly, and myself not well enough to stay in a room without a fire, so could not attend meeting. The Bishop preached. Mrs. Jones went away in her usual expansive, hearty manner, without having a sentiment of spiritual matters with the church. She asked how one can arrange the matter worse. She has written to Rev. Mr. Ferren about it, requesting him to come and assist in arranging matters. The church here much to their advantage. The minister is an able man, but cannot, until a later date. The Lord speaks to the upright heart. Mr. Locke says he shall not assist till all in the subject of preaching this year. Because he thinks he had too much to do in last year's solemn matter. (2 P.M. 33. P.M. 52. 3d. 50.)
