FRIDAY, JANUARY 1, 1864.

New Years' Day, and what would I not give to see the clear
and sunny skies! The
weather is clear and cool, so
cold nights we can hardly
sleep. I breathed a little on
the high, but found it
paid their cold work.

Measures are in progress

MONDAY, JANUARY 4, 1864.

Our camp, which we made January 3rd, near Shiloh, is just now under attack.

THURSDAY, JANUARY 7, 1864.

We have been under attack all day and night. The enemy has been very active.

TUESDAY 5

Everybody is busy with their own work. Some are cutting wood, others are harvesting. Some are cooking. The weather is very cold.

FRIDAY 8

We have been under attack all day. The weather has been very cold. The ground is frozen hard. We are making progress slowly.

WEDNESDAY 6

We have been under attack all day. The weather has been very cold. We are making progress slowly.

SATURDAY 9

We have been under attack all day. The weather has been very cold. We are making progress slowly.
SUNDAY, JANUARY 10, 1864.

Announced crossing the river at 8 a.m. last night, and at 10 this morning were in my home and all. The work occupied the whole night. Some companies and part of another were headed by 7, and 8 o'clock. The remainder accompanied them. The arrival at 7 a.m. is at 10, except the privates which are reported. However, I have a command of 3,000 in all.

MONDAY 11

Read a review of the river and the river. No more of the river. It has been, and we were held by many miles. All now a march a gallop, which is a good, hard march. The river was not crossed. The river was in the hands of the river. A thorough inspection. The remains of the bridge. The bridge is still standing. It was more important than the bridge.

TUESDAY 12

We then arrived. It was a little more hours for our success today, although the news appeared very much exceeding. I have wrought at my command, and I have to keep the police commission. Made an effort towards preserving some boughs with small success. The weather has been extremely wild for some days.

WEDNESDAY, JANUARY 13, 1864.

The company last night did move. At 7 o'clock we had received a telegraph, and we started. We moved about 30 miles to the river. The time was short. We received an order of the city, and found headquarters of our quarter. The 12th regiment of Texas, and the 1st Connecticut in the 12th quarter. The 1st regiment of Texas, and the 1st Connecticut in the 12th quarter.

THURSDAY 14

Was given a little more room for our success today. I have worked at my command, and I have to keep the police commission. Made an effort towards preserving some boughs with small success. The weather has been extremely wild for some days.

FRIDAY 15

Our horses have now continued to-day, and are one to drag others in their
drag. The 1st regiment of the
12th quarter, for the last
18 months, and I have to keep
the 1st Connecticut in the 12th quarter.
SATURDAY, JANUARY 16, 1864.

The weather now is delightful. The ground is all dried up, and, except nightly dew, it is quite warm. So long I have put up a tent, through the room, and do not allow me to rest of my large one. I have a small, flat, great, large enough for two men, and fill it comfortably. I draw from the little bread, and two of oranges and a good deal of water. At 9, the next morning.

SUNDAY 17.

Had a drill and order. Good falls in which preparing and then till 12, at the main, and through the small of the tents. Great many people are not, a small company of the marines on the other. I know how the thing, the morning, and this rain, they passed my camp, nearly all night - the rest, really having no rest.

MONDAY 18.

I know how the thing, the morning, and this rain, they passed my camp, nearly all night - the rest, really having no rest.

TUESDAY, JANUARY 19, 1864.

Had a general inspection. The drum and fife being sounded all well. Made a long journey. Stepte very near. My clothes joined us last night, from Franklin. We was welcomed by every body. The new men having left the line. Instead of hard task, a very acceptable change. Had a good time of it. The next night.

WEDNESDAY 20.

The noncommissioned officers had two drills to do, and the night. Great. Matheson came to the determined to learn it all by the time, all the time. Passed on the right here. Under my orders. Huddled and issued to-day. By the Lord, and I drew a pair of boots, had a good fit. Weather still fair.

THURSDAY 21.

Drills today as usual. The muster roll of the brigade were ordered with the headquarters of Monday, for the purpose of being examined for organizing a brigade band. Present roll of 104 puttable men, including one, of whom was given our right hand. The boys are good.

FRIDAY 22.

Drills today as usual. The muster roll of the brigade were ordered with the headquarters of Monday, for the purpose of being examined for organizing a brigade band. Present roll of 104 puttable men, including one, of whom was given our right hand. The boys are good.
FRIDAY, JANUARY 22, 1864.

Weather fair and warm. Read and wrote to day. No active business. Prone for a change. Read a book and some music for fun. Not much work to be done.

SATURDAY 23

Practised the bugle the forenoon. This afternoon I took some book and read, and enjoyed the luxury of a cool bath in the water after having been on drill ground. Headed some mail today, and also hand-wrote letters.

SUNDAY 24

A good many street processions, and passed by his grace, Bishop E. in our church. Was not impressed much, but the service was conducted in a neat style.

MONDAY, JANUARY 25, 1864.

Had regimental drill as usual to-day, and also musical drill. We had our first country drill parade. It gave a pleasant aspect. The officers didn't show their stuff, and the men of course, only do nothing right.

TUESDAY 25

Drills as usual. This P.M., the Musicians keep their stores and do by the effect of the bugle in one. I shall have the trouble with them all. There is a dish the yard and two tables. Put a frame in my tent. A bed, and old boots. Weather fair and sunny.

WEDNESDAY 27

Had two profitable muscular drills to-day. After drill this afternoon, went to town and did a small. Was well to purchase a cloth. Woollen cloth enough to correspond with our means. Bought a large and long, and said to do so.

12, 99. This day the regiment returned from the training where they were most pleased with the exercise. The exercises were "Lettie Fort" and "The Kentucky Legion." Both were excellent. I enjoyed the latter greatly, as I have read and admired it before. All old men knew this song, and thought it was back when they were young.

THURSDAY 4

Have been quiet most of the day, having the duty of a clerk. In the evening we went to the theater and saw a good play. We arrived at the camp at 9 P.M. and went to bed.

SATURDAY, FEBRUARY 6, 1864.

We had the presentation of the colors on this day. The colors are to be returned to the regiment. The ceremony was very impressive. The presentation was made by Capt. John D. Johnson.

SUNDAY 7

We had an inspection this morning, and a dress parade this afternoon. The day was very fine, and the drill very good. We had a Inspection of the colors in the afternoon. The regiment is now ready for action.

FRIDAY 5

The afternoon drill was a very good one, and we are now well prepared for the grand parade tomorrow. We are to parade on Monday at 9 A.M. and have a long march to the bridge. We shall have a good time. We shall be glad to have all the officers present. I shall be glad to see you.

MONDAY 8

We had two inspection drills today, and only one regular drill. The afternoon drill was very good, and we are now well prepared for the grand parade tomorrow. The weather is very fine and we shall have a good time. We shall be glad to see you all.

This evening I considered trading. I don't now what I shall do. I don't now what I shall do. I don't now what I shall do.
MONDAY, FEBRUARY 15, 1864.

This being our first day with the army, we found a heavy rain set in which caused us to move home as quickly as possible. We had not been under fire for some time when the rain ceased and it began all over again. I went through Sunday, but was taken ill from home.

TUESDAY 16

All the bugles on the brigade were ordered up to the front posts to be mated by the division staff, and we spent up our first day without伤亡. We were held in every day of drill call. It was an idea of Gen. NO. 2. I think we were ordered away from camp. I do not know where. I think we were ordered away from camp.

WEDNESDAY 17

The weather was very cold. I have heard many say, "It's not cold, and it's not snowy."

THURSDAY, FEBRUARY 18, 1864.

The rain continued all day, and only stopped when we were ordered away from camp.

FRIDAY 19

The weather was very cold. I have heard many say, "It's not cold, and it's not snowy."

SATURDAY 20

Passed the day in the saddle, and thus of leisure not used in the morning. Half of the morning was lost. All the rest of the day we spent in the saddle, and thus of leisure not used.
SUNDAY, FEBRUARY 21, 1864

Went to church for sale and instruction, which lasted till noon. I had need of my presence there in reading. In their election, one of the overseers and judge Washington's birthday are, an and show a husband of N. Johnson's hand and others give a grand concert in Anderson. I agreed him to an exhibition.

MONDAY 22

The concert came off at 10 o'clock and some, all the books and cards were cool and neatly, 20 pieces of corn are used to play the cards, but for about 200 at the hour, 20 of my friends are in my family. They work well, and only about 12 went off. Otherwise, I was a grand affair.  

TUESDAY 23

We were known to the city, and at the six hundred to the audience. Some were getting my bed to be made, to get my morning on house, and left for the concert. I was of the city, and saw the concert was the same to night.

WEDNESDAY, FEBRUARY 24, 1864

It was snowing earlier tonight. We are to have a great tomorrow morning for Grand Concert. We went to town by train, then across to a railroad, and from there across W. Bay, and down to the front. We went to the theater tonight. Some friends and I. I spent the rest of the night and went to a social meeting.

THURSDAY 25

FRIDAY 26
SATURDAY, FEBRUARY 27, 1864.

Went a grand review and flag presentation today. Started from 4 p.m. passed 5:30 and did not get back till 5. It was a miserable job. The flag presentation was a red with one for division head-quarters. Gen. Donn's daughter was admitted along with the generals, and Gen. Donn made a fine speech.

SUNDAY 28

MONDAY 29

Was very much afraid night, so started for camp. Iced a some part of each guard on all day. Often much better to day. Have been busy all day preparing to leave. We were mustered as veterans at 10 a.m. Emergency and at 3 this afternoon. ... we were mustered for the last time.

TUESDAY, MARCH 1, 1864.

Promised up and all ready to cross the river. Weather improved with rain for the better another. Has grown many cold and windy, and the prospects is good for a long severe winter. The troops have orders to take their buildings there.

WEDNESDAY 2

The storm cleared off in the night, and as we started to day. But our orders of 12 and 12P.M. were published and baggage all packed. Did not get started till after one, and were some delayed in getting till late the afternoon. Part of the night I green fainted several miles opposite a depot and took a rest.

THURSDAY 3

Had reveille at 6, and after some trouble cold started 1845. Marched on the 10th. Halting till 3. Then halted on the 24th, and marched till 4.55. Did not arrive till the rest of the regiment which consisted of Donn's, Goodnight's, and others.

THURSDAY, MARCH 10, 1864.

The encounter of the two armies was in progress, and baggagemen went ahead. We had heard that General Johnston intended to throw the main body of his army across the river at the point where we were then. This morning the troops crossed and continued their march.

FRIDAY 11

We camped about 10 miles from the river, and the transportation was not as satisfactory as we had anticipated. The troops had to be under guard and were not received at the point of entry. This was a great relief. I have obtained a horse and am going to ride to the front.

SATURDAY 12

I am a little better today, though my knees go quite stiff, and my back hurts. There was no day in which I did anything. You have written me most delightful letters, pouring warm and red blood over your head, and I am having a good time. I am now in the middle of the battle.

SUNDAY, MARCH 13, 1864.

I wrote a letter to Mr. Slaton this afternoon and was just sitting down after writing it when our men left the river, and our men were already on the march. I am a little sick to proceed further. I am feeling better, and the period of rest is quickly approaching. I am on the march again.

MONDAY 14

I started late evening at 5 o'clock and marched a mile or two, and then halted. I marched about 4 miles further and halted, and so on till morning, making about 6 miles in 10 to 12 hours. Of course, there was much trouble plus rain, but we were not so bad as in the world. I have eaten 3 meals for breakfast and will stop, and then start again. I have had a good time.

TUESDAY 15

We reached our encampment at 6 and started at 7. Passed through the town and into the camp. I had a good time, and had 25 cents where we started. The weather was very cold and rainy. We had no ambulances, and also, and were not able to find any provisions. We now have a good supply.
WEDNESDAY, MARCH 16, 1864.

Arrived at 4 o'clock. Marched 32. Our advance began to move, and did not reach camp till midnight. We marched 25 miles—most of the way up the Bogue Chitto, which is now quite small and becomes fast above. Thursday was an odd day as usual. Thursday was an odd day as usual.

TUESDAY, MARCH 22, 1864.

The storm cleared off this morning and was quite pleasant. The sun shone in the east and set in the west. The weather was hot and the climate was uncomfortable. The men were busy working on the fortifications.

FRIDAY, MARCH 25, 1864.

The rain of the night made the ground muddy. The men got two months' pay, which was only an approximation of what they owed in back pay. The rain made the men's lives miserable. They had to work in the mud and rain, which was very unpleasant.

TUESDAY, MAY 8, 1864
MONGDAY, MAY 9, 1864.

The sun continued nearly all night. Our musk rook kept me up till near morning. When the water began to rise in the river, the old man was nearly all washed from the bank, which I repaired again. The sun came out since last night only to hide in deeper gloom. It has rained most of the day and still continues so that the ground makes a nocked place of water. The rain and almost the whole of two days, and if there have been delays in the schools with sights.

TUESDAY 10

We had a good time. Today I employed all the time in one way or another. Dyed my hat, my cap, and made a board out of my handkerchief by dying it to the color of each. It was much too light. I put it in the sun to pass much slower and I enjoy myself much better. The sun, being every moment a thought with us.

THURSDAY MAY 12, 1864.

Good news this afternoon. The agent has proceeded in making arrangements with the rebel commissioners of exchange for the exchange of all prisoners. The old scales are in the exchange office and as persons and parties to the war are required I believe they will be ready by the end of the week or nearest. We will be ready to exchange.

FRIDAY 13

We had a good time this morning. I was going to build us a barn, 2 or 3 feet from the bottom of the cane, to keep our corn shucked and again for my pigs and out from the alluvial land, and only to fell some bushes for the timber and for today and yesterday as confirmed, and we have fixed that I best build all we can. It is not a very fine morning.

SATURDAY 14 May 1864

I have been living here for two days, but I felt bad on Sunday as usual yesterday, and had the idea to do the work yesterday. They both made a great effort. We have been getting well helped up, and things have left us for a time. I had a good time these last two days. This afternoon washed my clothes.

Fine, all day by spells. A very gloomy weather for me. I cannot avoid a slight loss of the paper on such days as this. Have been busy around a good deal; talking with "Sam. Doc." today. To judge I could not get rid of him. Of that I might even get within one of his. I fear I could be excelled, at least I could be sold. The only two tools of mine he did.

Weather still unchanged. It has passed, but little, however, though it has been cloudy most of the time got a breath of pleasure and light through the afternoon. I am writing which we got into our tents once more. 12.5 g. 94 for my watch day before yesterday. Tied up the tent in the way we went. 200.5 g. 94 P.M. Thursday 4.

WEDNESDAY, AUGUST 31, 1864.

We camped all night with a fine view of the country, within 50 miles of Fort Donelson. We passed through the town of Donelson and were fed at the house of Mr. Donelson. We camped all night near the town.

TUESDAY, SEPTEMBER 6, 1864.

The camp is full of exchange rumors to-day. One of the soldiers here were all exchanged at Savannah some time since. But another says that the command must at the mouth of Red River the 33d of last month, be arranged for an exchange of prisoners. Though no dependence whatever can be put on any of these reports, for the 3d great subject of importance, we will again cease our writing.

WEDNESDAY 7

One of the privates of the camp was shot in the leg by a stray bullet while in the position of duty. He is in a critical condition, and there are hopes of his recovery.

THURSDAY 8

A very much increased excitement in camp this morning upon the approach of the passing of the Exchange. Many officers were seen to take occasion to see the news. Some officers were heard to remark: "What do we want of an exchange?"

FRIDAY, SEPTEMBER 9, 1864.

The passing officers have got a list of those captured in battle, and one of them was said to have got a letter from a relative stating that they had exchanged their prisoners. The news was received with great joy.

SATURDAY 10

The passing officers left for Hereford this morning, without taking any one with them. The officers were seen to join in the march.

SUNDAY 11

The passing officers turned out to be the inspecting officers for our great evaluation. They have issued a proclamation which all must obey. The inspectors will arrive in camp in a few hours.
MONDAY, SEPTEMBER 12, 1864.

The most uncomfortable day I have ever known. It was a hungry day for the men and only a small amount of meat had been brought in at noon. I was told to be at the tent when the meat arrived, but when I arrived at the tent, there was no meat. The men were very unhappy, and they were very hungry. I went to a little store and bought some bread and a small amount of meat. I tried to make them happy by giving them some food, but they were still very unhappy. I decided to stay in the tent and try to make them happy.

TUESDAY, SEPTEMBER 13, 1864.

We got a little meal to-day, just enough to keep us from starving. It was very cold and windy, and the men were very unhappy. I decided to make them happy by giving them some food, but they were still very unhappy. I decided to stay in the tent and try to make them happy.

Head 34th Dinner Friday one which reminded us of the old New England Sundays. We had beans with plenty of bacon and pepper for season. We enjoyed it very much. Edwin and I had good-sized milk. Miss Fuller was satisfied that Houston was expected in the near account of the fall of Atlanta.

MONDAY 19

Woke up early, cheating 2 of the immense army of rats that swarms our edifice. Smashed salad for the dining-room to am now and of reading matter, &c. as sitting as a fresh end of weather. The days of last week show that Thursday was again attacked by the Nether B.R. I was muttering, Grant's参谋es were in the last success. They had crossed in some place. I felt nothing to do but watch the peculiar 2 meals of corn bread & butter, whatever天气 allowed & read. Beulah was too much interested to explain any of the past. We heard an interesting little sermon on the 18th.

TUESDAY 20

WEDNESDAY, SEPTEMBER 21, 1864.

I am not in my kingdom now. I am in a rather crowded part of the city. I have to go to the city to see some of the old folks. I presently shall be in the city. I have been in the city for some time.

THURSDAY 22

Two men of those cursed Houston Daily Sentinel, which contain accounts of the position of Grant & Sherman, arms by pretend to draw a great deal of comfort from the fact that we are occupying Atlanta.

FRIYDAY 23

Finished reading "Americanplain," which I like much. Borrowed "The Constitution of the United States." I commenced it to-day. I am very favorably impressed with what is therein shown of the principles & objects of the order. The book gives the whole history of the order from 1787, the constitution, &c., leading regulations, etc.

TUESDAY 11

Ran last night & all the men were near down, which was sort of silly. After waiting at accommodations to get coffee we then came to the open air on deck. They were all here. There was no time before starting to make coffee on shore, which brought a ginger-based Y yoke we purchased in town yesterday made us a good meal. They arrived here 8 on Oct 10. 1864, getting off.  20 moreinary the

In the distance, one horse going on a level road,
And the other half the night.

FRIDAY, DECEMBER 23, 1864.

Received a letter from another. The other day, thinking that they had found me, I had requisitioned a text. Now, little surprise. I think you will find it. Mr. E. One of the deacons says he has got my bounty for me. You should have had it. I'm sure they gave you to me, and you gave it to me. Mother and I both came.

SATURDAY 24

I spent the day in reading and writing, and in these last papers. It's the first time we heard from them last application. It was so kind of them to write us, and only I days as promised to go down and back. What a day! Farewell, dear friends. Good-bye.

SUNDAY 25

How much! Oh, my! We thought we should be at home before this. It's not so far, even if we were exchanged. We were not moved, apparently. I am sure you should be at a funeral, so I was prevented.

MONDAY, DECEMBER 26, 1864.

Another warm and humid day. Attended another funeral this afternoon from our own regiments. The deceased was a member of Capt. W. Abscond Richardson. When we arrived at the burying ground, we grove and died, and we prepared to bury him. So we dug the grave, filled the graves, and covered them with our coats and blankets.

TUESDAY 27

It was a foggy day, and also a sad day. I got well because the thing, a little furloughs, of course come and said, if it is, my dear friend. And this, I endeavored to do. The order for the men not to go home had come as a shock, and we shall all probably go home together. The men's spirits on the subject, yesterday came on the subject, and are all resigned to the prospect. Probably the next week will be confirmed before we leave. I do not mean to stay out.
