Dear Colonel:

I have your letter on my return from Newport. Also one from Wilton. I send you by this mail copies of my answers. I have also from Wilton a letter from his agent who promises himself could make no objections to it.

I have not yet seen Judge Wood's decision in full. I feared, however, it would be just as it is. I rather agree with you, that it is best not to make a fight on the part of the poor man, until their action should be calculated to injure us, which I don't think it is as yet.

Tell Wilton I will be glad to appear at Atlanta at any time that I can do any good. Show this letter to him, as I have a good deal of correspondence on hand and not time for two letters today.
Col. Pease,

I think your friend Sidell would suit Charles exactly, and be very valuable to him.
I sent him your last letter to me on the sub-
ject and urged it on him.

Yours very truly,

Dear Gen,

Many thanks for your favor of the 9th.

I have spent the morning over the volumes you refer me to. I think I can get along with what I have found, but for one point—that is the Caspari losses in Virginia May 64-April 65.

These Vol. do not give them, neither can I find any estimate of them in Ovintin—in Humphrey's book on that campaign—in Long's life of Lee, in Livermore's Numbers of losses, nor in any book.
in my library. Has there never been any estimate of the Confederate losses during that campaign? I have only been partial ones somewhere of particular battles, but I cannot now recall where. Do tell me if you know of any partial ones or of any lump estimates by anybody.

Very sincerely yours,

Dear Mr. B. Castleton, Chairman
Invitation Committee

Dear Sir: In reply to your kind invitation to attend the coming reunion of Confederate Veterans at Louisville. It would afford me more pleasure than I can express to meet again so many dear and valued friends but I regret to say that circumstances this year render it impossible for me to do so.

Very sincerely yours,
