Death of Mr. William Worthington.

Mr. Wm. Worthington, manager of the Atlantic Hotel, Ocean City, died at 9 o'clock yesterday afternoon, from paralysis of the heart. He was 60 years of age. Mr. Worthington had a hearty dinner and while at the table remarked that his children were all here except Alice, who is in Norfolk, Va. To one of his friends, who saw him and spoke to him about 10 o'clock he expressed himself as feeling better.

About two weeks ago an extremely ill day while out assisting Mr. D. C. Hudson, of Brilfield, on surveying, he was taken with a stroke and paralysis. The muscles of his face becoming stiffened and drawn up.

He retired to his room about half past two o'clock, for a little rest. A little later his mending room was taken up to him, which he shook in the bed. It is thought he died a few moments after, as he was found in such a position as to indicate this.

Mr. Worthington has been connected with business in Ocean City for several years. He was manager of the Atlantic Hotel, and was one of the leading business men of the city. He was also one of the proprietors of the Atlantic Hotel, and was one of the leading business men of the city.

We have learned from reliable sources that Mr. Worthington was a resident of the city for many years, and was a member of the Presbyterian Church, and was a prominent citizen of the city.

The announcement of his death was made by the Rev. Mr. Worthington, the minister of the Presbyterian Church, who was much regretted by all who knew him.

The body was removed to the Atlantic Hotel, and will remain there until the funeral, which will take place tomorrow morning.

Funeral services will be held in the Presbyterian Church at Ocean City, at 11 o'clock tomorrow morning, and the body will be buried in the Ocean City Cemetery.

more quiet steps and moves around, just winding up his clock and preparing for morning prayer.

Each child had a chair at the table of their own, seated in a semicircle around the sleeping fire, each in succession seated a few, after which our father led in prayer. One I never forget the old time breadfruit of smoked hickory nuts and sugar varence - which followed the morning devotions. From the old home on the gifted. My sister left me to return, and my darling brother natives. Next Point at the same time, thusouding another look. On the pepal old pyramids, planted by my mother hand, ready 70 years ago tall. How many tales it could tell of the Many women persons it had sheltered now also Breast the 9. One of my first recollections was the marriage of Joseph Hadley & Maria Hassen in 1856. The next is that of my father coming home from the South where he had been residing my orders. My sisters came from school in 1857 having south Ann Johnson died in 1856.

I was a friend when we all liked. I am remembering how beautiful my sister was at this time, she was only nineteen. The winter night in December the snow drove up and brought Tom Hassen, he must have been about 15 years old. I remember the beautiful yellow hair and blue eyes. There was snow on the ground, for the first time, and I saw her. The next year there was no exception. It was in the month of March, they having come to some eight years later, we sailed with us. She had lost her father and her home was broken up. A sweet child she was, the companion of my childhood. An important event in my life at this time was a visit to Pala. Aunt Margaret took me and we saw. I remember the starting off on a cold morning in the close coats. Of riding all day and stopping at Milpas to spend the night. Of being combined in the darkness of a winter morning to dress, and of breakfasting down to the Steamboat Special which took us to Pala. I remember my marks and the change we were treated. My aunt

In Chile was a landmower woman, and entered into the return of a man who has made her stickingly so. She was new in his prime. I wish I had a picture of New York, Howard was a typical old maid when she was married. She was seven about 50 years old, very slim and reasonable, such childlike for all this long journey I do not remember a single word from him. My sister made me a pretty white seagull, a changeable blue and red candy whist I think they called it. I was very proud of it. A little later than this, my father took

Cornelia Pierce to her seat. He must have been 40 years old. The red cotton coat I had, with a long shawl, was the pride of my heart on the winter. A great wedding took place on Feb 7, 1853, to which my father took Eliza F. Together, I forgot what she looked like at Littleton, Franklin in 1853. I learned the contracting parties. They were married in the Old Sunday "I had to couple to visit them. I wish I could remember how they were. I remember Cathe. Sanden to see all the beauty also Eliza Tress or rather Eliza. From this can see or rather

Cornelia wasn't about 25 years ago. In 1835, who with Mary S. Marshall was one of the frontiersmen. (I was the candles one on each side of the wall, the two remaining)

Cornelia was about 17 years ago. In 1838, who with John T. Franklin, was the 20 years old. John B. Franklin, his brother, and Constance, her cousin, were the only one of the family to get married. The only one of the family to get married. They married in 1833, and lived in a large house, with a large garden there (as we thought).

In the summer of 1853, I took what was to me an eventful journey. Mr. D. & Eliza a close neighbors of my father took the daughter Belle & myself to Chile in the steamer called the "Vasa of Berlin." We left the landing to take my father and his fine steamer. It was one of the last days before we were sailing, Mr. Franklin, who is a friend, was so kind that we were treated the best and best. Everything was the thought of anything is. After a few days, we began to enjoy getting on the deck and watching the-fashioned as well as the sails called from. One day we passed over a school of Seal. I remember that the water looked clear with fish.
Mar 15th
Mr. Shepherd came all the way from Baltimore to see Billy and myself. He preached that evening.

Mar 20th
I got a letter from Tung, the boy I left in Florida last fall. Mr. Harrington came around looking as if he had just stepped out for a Saturday. Just today Mr. Talbot, Mr. McDivid, and Mr. Shepherd were in his study. They told Billy they stayed all night and Mr. Brown came to bid me good-bye as the war was going well.

Mar 21st
Billy, Mr. McDivid, and I went shopping at Mary's. We dined at Uncle Levin's and bought a book from Mr. Harrington.

Mar 22nd
Mr. Harrington came to see me and brought me some money. He said he would give it to Billy to buy some clothes.

Mar 23rd
Mr. McDivid and Billy took a walk with me. Mr. Adams and Mr. McDivid called. They spent the evening with me.

Mar 24th
Mr. McDivid took me to a party at the McDivid's. They were from brown hill. Miss Adams and John Daley took me to dinner with Billy. Among and Young came in the evening.

Mar 25th
Miss Adams, my music teacher and Miss Gross called. She called but I had no engagement with Miss Gross. Billy, Otto, and Mr. Harrington went to spend the evening at the seminary. Miss Adams said she would be here about 10, but she was not. She is very pretty, but I should think she would prefer with her beautiful dress in that rather small in the hands of men.

Mar 26th
I asked Mr. McDivid and I went driving. We drove to New York to see Miss Adams. I weighed 134 lbs. Billy was 147 lbs. Sarah 148 lbs. Elmer 142 lbs. Samuel 164 lbs. John joined us at the Yacht where he took off.
Thu Apr 18

Today and I cleared 180 books. We are going to try to get a new setup for the pressroom.

It is a family. I must think and good enough for a friend. But the balance is one amount of praise more.

Lena Lippin Taylor, Suzy Rutledge, Happy Mathew, Sally Otto and several others collected for the school.

I thought it was one to go home with two.

This was a nice new one and an engaged playing and dancing very nicely.

I am home with you.

Orphan South, who was buried at Haining.

After the service, Mr. J. P. went to Manson.

Mary Haining's to see Eliza and Nancy. He seems to enjoy their side, and maybe they know.

He has not talked on any of the Haining girls. He says it is like picking after groceries.

Friday

Good and Eliza came from Ohio, where they had some to bury, and one sent for Mr. Haining's pictures.

The one with the broad.

Sallie and I called at Georges Cyno. Also, Anderson and Joe Brown were there, afterwards we went to Mr. Squire's, and Dan was there. We came home with us.

Mrs. Squire has an interesting family, she once had money, but now has a small amount with others.

Sfriendly,

Sincerely,

Mary Brown

We return.

We used to write at home from being absent. Albert was very attentive to Barbara. They went with another little girl and me to a dance with the Smiths. They was very sweethearts at this time. They were happy days.

My father returned home on March 1st. It was while he was away that Alfred was in Philadelphia. He asked his friends for the hand of my sister. The week to Annapolis, he went to the Naval Academy, a grade to the head of the class in English and mathematics. He went to be examined, but was not ill and had to wait another year. My sister was in New York and had to wait another year. She was ill. The children did not think. The children

We went for a drive. We went to Cassin's and then home by train. — I wanted to tell him if I had made up my mind at last to marry him. I told him I would not, that I saw nothing attractive about the lives of my friends who were married, and to the contrary much that scared me. He understood that, but that his love was strong enough to make me come to a decision that I would give and the responsibility of giving up a single life. He knew I was very young, but he had loved me for years, and could not give me up in all that time he had never been sure of one, and somehow had decided to give me up, because I told no one to show them anyone else, then why does he resist? Oh, dear, I have been a married woman that I cared. Why want to go on just as we are. We and happy. Suffuse love think I once would want to die. It is the matter of great, from every day life I dread, all romances gone. I see this exact day. He says he thinks it is not love, him, so I would not argue this all out.

July 24th, I went to Aunt Rachel Turpin and took ten or letting her husband's estate. I went over to see Mrs. Rachel, and Aunt, and to stay, and to look around. Now, Rachel is the most refined woman, always acting quietly in her rocking chair — Geddie is lady of the house — Geddie and Maggie; Maggie is his wife. Bessie and Annie said, "Oh, we love you."

1860, Father came for the evening. He had a cold, and felt very poorly. He was standing near the window, and we were all sitting near. Father, if we do marry, be have me all to yourself, but might not count me to mean go with anyone else until we are.

1860, Let Geo. Bell — they, Madeline Adams, Annie, then, and Geddie, all spent the evening with Maggie. Duane, and I had a nice long talk.

1860, I heard that Annie Belle could not live and was afraid to die. I wrote her a long letter, hoping she might find a little comfort in it. She and I took a ride and made up again.

I do wish the evening Commercial school again on Monday last.

Belle is not up yet and while waiting to take her up to dress her, I thought I would write a line or two in my dear old journal. Anna J. May Pitts came down yesterday to see her and Mother and Mary Jeffie came in the afternoon. Mother said a long time for her but she is so pleased with Belle.
May 9th
Last yesterday home. Wind is quite pleasant. Wrote to Eliza, went to Brit and to see Belle before going. Talked at A. No. and to see Eliza. Her boy is large but nice is the brightest. Both precious laughter and appealing looks from her will always be enigmatic. She is a good and mighty sweet baby.

May, my precious little baby, is three months old today. I did not know I could love any child as I love her. I do try to feel thankful enough to God for a loving little pet. When I am with her and hearing her own heart is so soft that I can't help crying at my eyes. Oh if God had spare her to return a portion of my living she can laugh and talk her fashion and can see at least as she can.
Wednesday 24th
I was sitting on bed in preparation for the prudent bedding. It was a nice day to commune. I do feel so
thankful. I feel that the Lord is looking out for me, keeping me alive. He is teaching me to
be happy in the morning or be alive.

frightened. Billie was that before she had received the news of the death of a child and had

A cold day, I brought my husband and got some to help me make a pie, I spent the evening in Eliza's this afternoon 

Amidst the snow, I have just got through telling about an event to come with brothers, just as we used in our young days, talk about our times. Mother had saved me such a good dinner, all day and Eliza seems like she's that I ought to tell her that I am just more like than ever before, I suppose it's my duty but I have rather like anyone else. Brother left at or Wednesday, they love darling little boys, and Carl do comes from 25 of I bid him. Zelke I should not have card so much for so it is more filled; it worked with the work than. Mother I went home Monday with Shelly make a cake to send Albert. In the evening I had some company from Nelly, Anna, and Margartha Long, Liz, and Elaine. Baby Don, Henry, Fancy Peter, Mother and Aki. Tuesday I went and helped all day, had my pleasure taken and Peter and I closed all night. Mother sent away and many hard, little 93 came home before dinner, and I took a nap afterward. I shall miss him too much, but this life is made up of feelings. It has been always a pleasant dream with one, since our marriage, that it would be nice if we had children, that they would have to come to me no bitter, but practically I have had a hand of孤勇 that would have to come, before my boy was born, and so it is.

So Mary Alfred came down on a week's leave, and her last visit to the home of her childhood. On the 17th of Dec. 1885 they returned to being once more at home, with them the door to their home, stayed all night at the door of the Bungalow for Uncle. We arrived there about from eight to a cab and drove to Plymouth St. Miss Emu, Alfred set us and had everything ready for us to relish a neat little home, and the winter was as happy as all the way through. Mrs. Ruschi's daughter there was lost there and we had a room together. I went to St. Martha's a great deal. Jake & I were mean of an age - at Christmas about 4 days south with her. We had a delightful time. The little thought that went. The last time he would ever see his beloved sister. My mother's dress was a

Macramé cloth, light brown, with lamps trimmed with black velvet. This coat I bought my first high heel shoes and a pair. They were beautiful. Phila was an old fashioned quiet place. Alfred was quite an artist, and spent his earnings drawing, and then very little. Sitting room. At Christmas she took us to see a play at the Pavilion Theatre. Aunt Martha was about, 40 years old with curly hair and bright eyes. She had had severe trouble but she was as light-hearted as always. As a girl - Mr. Wm. Allen was a chumb and very bright. My Uncle Frederick did Ende very well in August to direct us bringing many White Angus Calves, that Judge, Nellie, Laura & Hubby came. I had been with us five years, Judge & Kate remained to attend school. I was very taken while they were here and didn't die a lack. She was buried in the Philipse Church Yard beside his great grandfather. One Sunday my father brought a letter from the City Office containing the sad news of my darling mother's death on the Tuesday previous. It was terrible for us all. The baby was born a short time. Alfred went to Phila to attend the funeral. My Cousin Ed. Comes went to Europe this summer returning in Sept. The sad news greatly hurt of her sister. Mr. W. Need Adams from Stamford, Conn., arrived at Mr. James Bunting. A terrible storm came up the same day.

Thursday Dec 11th.

Well, we're moved in our dear little house at last. Polly asked me on Thursday if she could come to see me on Friday (as she didn't think she could come until yesterday), but it was so pleasant and pleasant we concluded to come, and here we are. We are very comfortable, but still a great deal more in a few days. We are so pleased and rather at home, and I'll be glad when they are gone with their little.

January 3rd 1863.

A new year has dawned upon us. The days have been bright and sunny. I hope that the year may end as agreeably as it has begun. May happy year of the Lord 1863 bring me the happiness of our little one always to come. In the few years of my marriage life both the most pleasant continued. It is a day that has since to pass in my memory, my anticipation and hope, and how to think they are more than realized. My good husband seems dear, and very kind, and I am sure I love him more. Our rocking Christmas is over and I am not very fond much myself. I guess a little tired of having company of all sorts. I have changed my countenance. I think I shall like the new very much. Polly is an appendice to husband.

Feb. 2nd

A whole month since I have written, and it is very different from the one when I left home. The snow is going.

February 13th.

It is snowing again, it is nearly six o'clock. I have not seen snow in Kansas, I have been quite sick but am feeling better again, and now down wires again. It is so nice to be don. I have to be to one. I love it when it snows. It is quite a novelty to be back.

March 1st.

My birthday. Polly and I spent the day at Smith's. I was surprised. It is very much a little. Nothing to write about. The next morning, we went for walks to see the scenery and for all the dinners. I have had a lovely first birthday, the last of three. March 6th.

I felt quite lonely today. Polly took Polly as she was so much as she could. I had a good letter this morning, Mrs. Smith's, and then sat down to write. We had partly promised to go home, but I kept putting it off. Mrs. Smith's came and she had not been gone long when Rachel came over. She left the letter late and sent for Mrs. Smith's to spend the night. When I shall miss my beloved one, and I know she will miss my dear and she is in the shoulder tonight.

Sunday 20th: Nov

I have been meeting at Amos's. Communicants and a number of the church. The poor were taken from the evidence of God's love. The frame of the church was so plain and striking on them that even our children have seen it. They have not come into temptation. It is a power from death into life, via love and grace. Would that my faith were as strong in spite of the adversary that I am far from the Kingdom and it came to one that my heart is so home. I partake as much of the nature of the earth, that I cannot even meditate on the nobility and piety of God. I want the same God's love. I hope I am willing to live it as I be chosen to ever think different from what I am. My God treat this thing heartily and let me once more fail that justice should come from him.

Sunday Oct. 17 1864

Dear John,

This is to let you know that I have been inquiring about the health of my family. Mrs. Smith has been staying with us for the past few days. She took supper at home, the reason being that she had to help with the hay. Mary and little Annie have been taken care of by the neighbors. Grandpa is doing well and Grandmama is still working hard.

Thursday Oct. 21

Uncle John and Aunt Mary have been visiting from the city. We had cake and tea and talked about our plans for the winter. I hope the weather stays nice.

Oct. 24th

Uncle John and Aunt Mary have been here longer than anticipated. We spent the day at the farm working on the hay. I hope to write again soon.

John
at some one's hearing and love. It will be so glad when she sees us. Father will have some words and if one was only meant I would like it to make Christmas so much more and a lot of work to do done before that time. This time last year I was hurrying to get everything done before I was married, and now I have been married almost a year, so in such a happy one, I am believe Belle and I love each other better every day.

Saturday, Nov. 22nd

A very cool day. My own presence has not been gone long. I told him I should be glad when tomorrow came so than he might rest for the long hours working day and night for more than a week. He finished putting the part on our house last night. He will come the last part on and as soon as it gets day enough for moving the other night I shall take it. There are many more with all my nice parties and contacts and I have made more than any others. I have written again, you have seen the receipts of my receipts for a long time, I have written precious one for you, not yet by the way.

The way is put up for all the places you get of both for the day, there are so many rides and work is from early, I did not sleep very well last night and Belle last night called me. I had breakfast with him and Belle. So I have had another breakfast alone. I wonder if I do not love my darling as well as any the good Lord keep once from idolatry. Pen Aunt Mary Ann died on Tuesday last. Pen love her when his brother was doing the last all care and trouble fell from her, but was but death to send that she had more than her allotted share. After this every year, I am sorry, she is again setting by his side. May she rest in peace. I promised some friends to come get the last I have done this year. I have some more work to do this morning. I want to sell our house next week of it at cold enough. I don't dread it. Very soon, I have a pair of plans to make for Belle again. I was putting in the off week before making the preparations for Sunday. I want to see some women. This afternoon, they are quite sick. Have a letter from Albert.

Sunday night, Dec. 2nd

Belle and I feel very well, and I close whilst he was lying down I would write some on my old journal. Sunday, Dec. 2nd

I am at home alone. Belle is at Odd Fellow, and Belle is at the store cleaning. Do want to move and talk of possibles. I am busy in my own and unhappy, will be glad when we get there. I finished Belle a few things that will need to get some if it. I got through my long shocks so easily, I took my surveying and kept well my self. Belle and I have been to the town to do some. To the topper there and all thought very easy.

O dear, I will Belle could come. Say you are afraid of what they have to say. I'll do the best I can to get the truth. Am looking at the end of the line at the comic. Boggs was there. If I tell this enjoy. I best at the happiest. I am free. I say too, stuff. Tell me something. Exchange those humble words with all above.

We went to Grand Hill yesterday and found girls room and pretty last night, and I told her that I love her and would come home. Mary sent a note Oct 15th. I wrote a letter from which she has been in a little cold and headache. How grateful one ought to be to the God of the Lord. He has been so kind as to comfort me these last days.

I feel quite alone today, all very little family except Mr. Hub. (Port’s man for him) have gone out of town. My own darling is coming this afternoon to see all the people on our hands and she will remain in the morning and will only some time say this might I miss her so much! it seems as if a part of myself is gone, and a hole that is away for this is part the last chance we shall probably have in the world. I want to think of you, and I wish I could write in your instead of a journal, but I I loved you so much last night it is so full of love for you so every day, and tell it now. I just think when I believe the words that do not have words fail in essential fidelity and I have been married seven months two, almost two and for the times precious to me that I could have been with you, the marriage a little takes the proper attention are not long after, the death came in for a time of repentance, where are those next people, the young? W. & P. R. R.

January 1878
August 15th, 1862.

My husband has been at work in town for more than a week. I suppose that accounts for my not writing in my journal before this.

This week my parson, I have quite a large family and do. Johnson from South Pitts is at work at the freight and coach. Now, I like him very much. Ve had a letter from my home this morning.

August 19th.

There is going to be a new weekly paper this afternoon. Peter and Irene to go - but she is so busy that I conclude not to go, it was quite a sacrifice. Never done all these. I have been accustomed to go in the past, but I thought that if my husband thought it was duty to stay at the work, that I as his wife should not stand between him and his duty. I do not want to do this sort of thing. I regret afterwards. Bob and Alice, Henry, Horace, John, Charles, Annie Bell, are all gone. Bob has not shown his face since I saw any here and today. I have not felt like to go at all this year. Numbers. I have had a major, and once at an arm, and instead of a trombone, playing the fiddle in a couple of last I have your hire to book and I have no more regret that I have given up my principal position. And if it ever appear to me, as long as I have my darling husbands hand, I will not refuse the one. I say go to work. And do nothing with the one that

...I was engaged - what could I say? only made
the point, had change the subject, there was
always been a firm friendship between us,
and at one time a warm affection. I think
he and Ann will make it up - not yet
but later on.

Maggie Mbunzufu came for the morning. She has been
engaged to Jimmy Ogbe, ages are love. No one thinks
he deserves such a girl, he has no occupation,
and is not considered a moral man by boy
for whom I must speak over 5. Being the
grandson of Capt. Whaley gives him prestige,
and respect in my set. She thinks she
loves him, how can one love another unless
there is sincere regard? the foundation of
all true affection - She is a fine girl, since
her father died the last had the care of
her sisters, Ethel, Florence, Elsie, & Josephine
the last one the grand daughter of Capt.
Whaley and Maggie's half cousin. The mother
was Harry Taylor's sister and also Mrs.
Lathrup - Harry Jackson, Annie Millet, Billy
Taylor and Amelia spent the evening.

11th

Willy Slone and Sarah B. refilled my call.
The W. spent the evening with me.

12th

2nd day's 21st birthday. Will, Maggie, Tom Elam,
Harvey Jackson, Sarah & Emma, Willy Slone,
Mrs. Slone, Annie Millet, Margaretta, Jan. The W.
came and the celebrated the occasion in June
after music and games.

15th

Laura Ball and Dale had another son to day.
It makes me think about how much things
it brings married life down to a level that I
cannot bear. I suppose it is real life, but the cost
one love and be just the same always bad
forever. Laura is just 19 and has two sons.

17th

Ann Slone and Henry Garnett called - In the afternoon
had Ann and Jim, Peter & Jack, Disamie & Billy Jackson.
Mr. W. and myself went among
the W.'s. thought it strange I cannot till when he will
be the happiest man on earth, I cannot to have my
life. I am afraid I am not left after this marriage has
attention for me. has not the right one come.
along do you suppose.

17th

Eliza and I made some calls, we met Mary Jackson
at Aunt Margaret's house, how helpful the dust cart - Day
the coming with Billy.

18th

Mr. W. went to check with me, not all the summer
boys are gone. He seems as happy as a lark, though
he is the Cook of the Tract, I suppose.

29th

Billy and I went to see Bette and her baby. While
there I pictured myself in a home like this. But not
with a cold married husband, I want mine to come in
with love and happiness. I love the boy and a career for one,
and should want to meet him in the same way. He
went from there to see Emma Jackson and then to Aunt
Grace's to get some grapes. Then we got back to Billy's
home there she is such a good kind hearted to all.

30th

The young Ann has more lines than father said he
was going to work well for the day, did not want to go with
her, I was ready in half an hour and away we went. He
stopped at George Brown's Hotel. After dinner Mr. Brown
took me to see the race. I met Jennifer Bivens and
Willy Slone called to see me - He left about 7:30
and home about 8:30. Mr. W. came to see after his coming home. Cellar, he met within
his eyes; it could be possible.

24th

Annie Pitt and Annie Hinder came to see me.

Tomms was a time, long years ago,
Of which I dream to-day,
A little child I used to know
Whose footsteps led me to and fro
Like butterflies at play,
Whose voice I heard the whole day long,
Whose days run like a child's sweet song.

A little girl I also knew
Long years ago, and she,
Like that first child, had eyes of blue,
Yet different was—for in her summer
The soul that one might see,
Long dreams she dreamed by me all day,
Yet knew I why she went away.

I know a maiden with a fair face,
She was my friend awhile.
I used to dream to think I knew her
What dreams fly deep within her breast,
What thoughts beneath her smile,
Blue eyes that seemed to know
Those other eyes of long ago.
