Col. Martin Canfield

Dear Sir,

Your kind favor of the 9th inst. was very gratifying to me to hear from you, it is always a pleasure to me to read a letter from your pen, and especially one when your name is associated with yours. I am pleased to hear that you have associated with your fair life a woman as amiable and virtuous as she is. The kind of woman I like best is the kind that honors me.

I have never seen any of your daughter, but I have heard much good of her. I have never seen any of your children, but I have heard much good of them.

I am very sorry to learn that your prospects for a good crop is gloomy, and that the land isCFG: wrong. You are serious, but have been rather lonesome, and not happy in the state of affairs.

I wish you the best of crops and the best of health. If you can get an excellent prospect for corn, you can eat corn; but if the failure of all the crops is not as bad, as you suppose, it would be a thing never heard of here before. Wheat crops are tolerable, good crops being what is needed.
imput by the move. We have no news here except that some of our know-nothing state officers have been engaged in stealing on a large scale. The Secretary of State has stolen of the public treasury $35,000. Delany and the Clerk of the Know-nothing Congressmen has stolen $7,000. Delany and the Congressman as a banker have stolen over $50 and our public state bonds deposited belonging to a fire burn out. Consequently, some. The County is full of worthless men. Some are Thaddeus repaid about $400,000. Delany. All this large amount of stealing and a demagogue has been engaged in it. Here is not a Douglas's Democrat in Pennsylvania we stand squarely up to old Buck Douglas has been a great favorite in Leaven but he is now back Company as we have seen and paid the usual return, and being for the fruit rank for aforesaid. before. Delany will ever return here. The money he has taken comprising old trail and will lead off into possessions. Abolitionism is a damnation and chief he is an ambitious politician and lives, of course. Mower from his country and is expected to strike at the way back to the Senate by pandering to the Abolitionists.

If you ask one for an opinion within you could make it to answer your own
move to this country. I feel some delicacy
in giving an opinion on this point for
feeling you might ask on it and were to
yourself, but as you ask my opinion I
will give it you just what you may think it
worth and if not much better I shall charge
little and take that as some of your opinion.
I learn you have a farm in a fertile
country, and on which you can make a
large sum, which is a good stake to stand by and will
make you a sure living, and this country is generally poor
except where the land is so high that it is impossible
to reach it. This is about one thousand fifty
are made money in this place but it takes money
to make money, and I think if you can get
a cash capital of $5,000 dollars you can make
money here without difficulty. You can sit in
the house here and make $1,000 per year on
a capital of five thousand. This will be time
and then work for the allowances and you can
make yourself a good fortune. If you can
raise from four to five thousand dollars by
telling your farm you would do well to come
if you had better hold to the old homestead
which is a sure living for you in the end. Be
very much qualified to have you move to
this country and hope you will do so — if you
can better yourself or even do as well, but
