DIREBLES' FIGHT AT SPAITA.

The special correspondent of the Atlanta Confederate furnishes the following account of the late cavalry fight at Sparta:

On the morning of the 9th instant, the 2d Michigan, 4th Regiment and 7th Pennsylvania Cavalry, under Colonel Colby, and the 6th Tennessee cavalry, Capt. J. W. Hinman, and 12th Kentucky regiment, Capt. E. J. Newby, advanced on Sparta, and were joined by Colonel Chalmers' regiment. Under the cover of the woods, the two regiments fell in, and after waiting for an attack, and waiting in vain, they charged down the road. A full volley of musketry was fired by the enemy, but with little effect, and after a sharp engagement, the Confederates withdrew, and returned to their camps in good order.

There was a heavy fight at Sparta, and a considerable number of our men were killed and wounded. The loss on our side is estimated at 200, while the Federals have lost 150 men. The situation is critical, and the situation of the army is quite critical.
The subscribers, having associated themselves together in the practice of their profession, would respectfully tender their services to their friends and the public generally.

Dr. Dodson, being a graduate of the Baltimore Dental College, and a successful practitioner of five years standing in this community, feels confident that he can, as heretofore, give entire satisfaction in every instance.

He would also recommend Dr. Holmes as a gentleman well prepared to perform the duties pertaining to his profession, he having availed himself of all the facilities for acquiring a thorough knowledge of the same, by attending the Baltimore Dental College, and taking private instructions with Dentists of note.

They will practice the profession in all its various branches on scientific principles.

They will insert Artificial Teeth on any of the approved methods which may be practicable, in a neat and durable manner.

Decayed Teeth filled with Gold Foil in such a manner as to preserve and render them perfectly healthy.

They will extract teeth and fangs with all the care that art and skill can procure; regulate the teeth of children; and treat all the diseases the mouth and gums may be subject to, &c., &c.; in none of which shall they be surpassed in delicacy and skill.

They offer their services to the public, feeling confident that their efforts to obtain every facility for dispensing their profession will be countenanced by the community bestowing their patronage upon them.
Compliments of some

you will pardon me for opening this letter from A. It came last night he says they mean to make Infantry of them, which will endanger them still more, I suppose A would not resign the all his friend should entreat him to, I wish he would, he has been sick, feels somewhat discouraged. If he come home, write to us.
We are expecting a letter from you, we think & talk of you all the time, it hardly seems that you have been here, your visit was so short, we are more lonely than before, & poor Sarah we pity her, you will write to her, my health is improving with the cool weather, mother is well too, dad, I suppose John will tell us about the baby, you have probably written before this, adieu. P. Cott
