TUESDAY, JANUARY 10, 1865.

It rained part of the day. In the afternoon it cleared, and I went out to the buildings. Part of the day, the rest of the day one did nothing but keep up fires.

WEDNESDAY 11

The next morning we got up early, and got breakfast ready. Then carried a little wood to air. In the afternoon we got a team and went to the woods and hauled timber to build our house with. We worked on them until thought.

THURSDAY 12

The next day we still worked on the buildings. It being a very pleasant day it was much enjoyed by all. In the evening we went outside of the deserted lines and pitched boards to look up the ends of our tent. We drew down rooms in the afternoon.

FRIDAY, JANUARY 13, 1865.

The next day we went out in the country with a team. To get lumber to finish building and build a chimney. Hauled a load of boards and then went to get a load of brick to build our chimneys and fireplace.

SATURDAY 14

In the morning we commenced to build our fireplace. Then made bunches of smaller sticks and burned up the ends of our tent. Then built a fire in the fireplace and ate our breakfast.

SUNDAY 15

The next day we did not go to any thing only write letters and read journals and newspapers. It was plenty cold all day so we had to keep our goods fired all day to keep comfortable.

The next day was the same as the last.
